## Protects Spotting Scope Lens, Filters Glare

Badger Ordnance's 60mm Spotter Protective Filter protects the lens of your 60mm spotting scope from impact, while it also reduces glare via its variable "cat's eye" aperture. When full light transmission is called for - or you need to attach a clip-on NVD - the entire 60mm Spotter Protective Filter flips up, out of the way in an instant. Sturdy yet lightweight 6061 T6 aluminum Non-reflective Type III mil-spec hardcoat anodized finish The Badger Ordnance 60mm Spotter Protective Filter, 60mm lens cover is specifically designed for use on the Leupold Mark 4 12-40x60mm Spotting Scope and Badger's SLICK accessory-mounting cage. These three components together make you a potent threat to distant targets of any type!

# Safety Instruction Guide for Badger Ordnance 60mm Spotter Protective Filter

## Introduction

Thank you for choosing the Badger Ordnance 60mm Spotter Protective Filter. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this manual carefully before using the filter.

## General Safety Guidelines

- Ensure that the product is used as intended and in accordance with these instructions.
- Always inspect the filter for any damage before use. Do not use if the filter is cracked or broken.
- Keep the filter out of reach of children and vulnerable individuals to prevent accidents and injuries.
- Use the product in welllit conditions to avoid any visual impairments while aiming.
- If you experience any discomfort or adverse effects while using the filter, discontinue use immediately and consult a professional.

## Specific Safety Precautions for Use

- **Avoid Direct Impact:** The filter is designed to protect the lens from impacts. However, avoid dropping or striking the filter against hard surfaces.
- **Glare Reduction:** The "cat's eye" aperture reduces glare but does not eliminate it completely. Be mindful of bright light conditions that may affect visibility.
- **Attachment Caution:** When attaching or detaching the filter, ensure that your hands are dry and clean to prevent slipping.
- **Clipon NVD Compatibility:** Ensure that any clipon night vision devices (NVD) are compatible with the filter before use.
- **Storage:** Store the filter in a protective case when not in use to avoid scratches and damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the spotting scope is turned off and is in a stable position.
- Align the filter with the lens of the 60mm spotting scope.
- Securely attach the filter according to the manufacturer's instructions for the Leupold Mark 4 1240x60mm Spotting Scope and Badger's SLICK accessory mounting cage.

### 2. Usage:

- To utilize the "cat's eye" aperture, adjust the filter as needed to reduce glare.
- For full light transmission or when attaching a clipon NVD, gently flip the filter up and out of the way.
- Always ensure that the filter is properly secured before aiming the spotting scope.

## Disposal Instructions

- Dispose of the filter in accordance with local regulations for electronic waste or aluminum products.
- Do not dispose of the product in regular household waste. Check with local authorities for appropriate disposal methods.

## Contact Information for Further Support

- For safety inquiries or further assistance regarding the Badger Ordnance 60mm Spotter Protective Filter, please reach out to your local representative or retailer.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Badger Ordnance 60mm Spotter Protective Filter. Always prioritize safety and proper usage to maximize the performance of your equipment. Thank you for your attention to these guidelines.
