

GTR REMINGTON 700 FLUTED FIRING PIN ASSEMBLY - FIRING PIN ASSEMBLY, BLK, SA

[Rifle Parts](#) > [Bolt Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

Precision Machined To Enhance Accuracy

CNC machined with tight tolerances to ensure consistent sear engagement and smooth, straight firing pin travel. The lightweight aluminum bolt shroud has close-tolerance bottom flats (.010" larger in areas) to minimize bolt side play. Gives consistent, cocking piece/sear height for repeatable engagement/release with all factory and aftermarket triggers. Firing pin is Flute Steel fully polished with a radius on tip to avoid breakage. Firing pin spring has reduced OD and ID to minimize unnecessary bending and drag. Assembly includes shroud, firing pin, cocking piece and firing pin spring. If you are purchasing a GTR Firing Pin Assembly for a PTG bolt it needs to be fitted by Gre-Tan. Contact Gre-Tan and they will install and fit it for free.

GTR Remington 700 Fluted Firing Pin Assembly

Safety Instructions

Introduction

Thank you for purchasing the GTR Remington 700 Fluted Firing Pin Assembly. This product is designed for enhanced performance and reliability in your firearm. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information regarding product safety, usage, and disposal.

General Safety Guidelines

- Always treat firearms as if they are loaded.
- Ensure that the assembly is installed correctly before use.
- Regularly inspect the firing pin assembly for any signs of wear or damage.
- Only use this assembly with compatible models as specified by the manufacturer.
- Keep the assembly and all firearm components out of reach of children and unauthorized users.
- If you experience any malfunction or unusual behavior during use, stop using the firearm immediately and seek professional assistance.

Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of your Remington 700 firearm before installing the firing pin assembly.
- Wear appropriate safety gear, including eye protection, when handling firearms.
- Do not modify the firing pin assembly or any other firearm components.
- Avoid using the firing pin assembly in adverse conditions, such as extreme temperatures or moisture.
- Always follow the manufacturer's instructions for installation and usage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools for installation.

2. Installation:

- Remove the existing firing pin assembly from your Remington 700.
- Carefully install the GTR Fluted Firing Pin Assembly into the bolt, ensuring proper alignment.
- Confirm that the assembly is securely in place and that there is no play.

3. Testing:

- After installation, conduct a function check in a safe environment.
- Ensure that the firing pin travels smoothly and engages properly with the sear.

4. Usage:

- Follow all standard firearm safety practices while using your firearm.
- Regularly check the firing pin assembly for proper function and signs of wear.

Disposal Instructions

- Dispose of any damaged or worn components responsibly.
- Follow local regulations for the disposal of firearm parts.
- Consider recycling materials where applicable.

Contact Information for Further Support

For any inquiries or further assistance regarding the GTR Remington 700 Fluted Firing Pin Assembly, please refer to the manufacturer's website or contact them directly.

By following these guidelines and instructions, you can ensure the safe and effective use of your GTR Remington 700 Fluted Firing Pin Assembly. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these important safety measures.
