

# AK SCOUT MOUNT MODE M1-B - ULTIMAK AK-47 SCOPE MOUNT

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

## Low Mount Lets You Use Optics Or Iron Sights

A rock-solid platform for your premium optics. With the increasing popularity of the AK based rifles in three gun competitions, the need for a handy, light, completely reliable high speed sighting system has resulted in the UltiMAK M1-B optic mount. Its Picatinny style rail is positioned well below the iron sight axis, making this the lowest optic mount available for the AK. With a tubular sight mounted low, you will be able to use your optic without a comb riser and still use your regular hold. The system allows for co witnessing (the ability to use your iron sights right through a 1x sight as a back-up sighting system) when used with a tubular reflex sight. This heavy duty mount replaces the original steel gas tube and upper handguard, so it adds less than one ounce to the weight of the rifle, making it by far the lightest optic mount installation in the world. The forward positioning of the optic gives you faster, easier and more natural targeting while maintaining your full field of view. Multiple target or moving target engagements, with both eyes open, become second nature. The UltiMAK AK optic mount rarely if ever needs to be removed to clean the rifle, so you need not worry about loss of zero. Since the mount is clamped to the barrel and not jammed in between the gas block and the sight block like the original gas tube, several UltiMAK users have reported an improvement in their AKs' inherent accuracy. Picatinny/Weaver style rail. Replaces the gas tube. Clamps directly to barrel for maximum stability, accuracy, and optimum bore alignment. The UltiMAK Optics Mount has been engineered for compatibility with a wide range of AK rifle variations. If you have a 7.62 x 39 caliber AK with standard weight barrel and a standard length, removable gas tube (roughly seven inches, or 17.7 centimeters overall gas tube length) the Mount should fit nicely. We have yet to find a rifle of the above description that our mount does not fit, providing that the rifle is assembled reasonably straight. Some AKs have radically misaligned gas blocks as compared to the rear sight block. In rare cases, this can cause problems installing the UltiMAK Mount. Solid, one-piece 6061-T6 hard anodized aluminum body. Comes with 4140 steel clamps, screws, allen wrench, and instructions. No Gunsmithing.

## Attributes

- Name: [ULTIMAK AK-47 SCOPE MOUNT](#)
- Manufacturer: [ULTIMAK](#)
- Product no.: 100000497
- Mfr. No.: M1-B
- Colour: Matte Black
- Material: Aluminum
- Number of Bases: 1-Piece
- Style: Tactical Bases
- Weapon type: AK-47
- Delivery weight: 0.204kg
- Shipping height: 6mm
- Shipping width: 144mm
- Shipping length: 256mm

# Safety Instruction Guide for AK SCOUT MOUNT MODE M1B ULTIMAK AK47 SCOPE MOUNT

## Introduction

Thank you for choosing the AK SCOUT MOUNT MODE M1B ULTIMAK AK47 SCOPE MOUNT. This guide provides important safety information, instructions for installation and usage, and disposal instructions to ensure the safe and effective use of your product. Please read this guide carefully before using the mount.

## General Safety Guidelines

- Ensure that the mount is compatible with your AK47 rifle model before installation.
- Always handle firearms and accessories responsibly and in accordance with local laws and regulations.
- Inspect the mount for any damage or defects before installation. Do not use if damaged.
- Keep the mount and all firearms out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for product recalls or safety alerts on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded and pointed in a safe direction before installing the mount.
- Use caution when tightening screws and clamps to avoid overtightening, which could damage the mount or firearm.
- Do not attempt to modify the mount. Any alterations could compromise safety and performance.
- If using a tubular reflex sight, ensure that it is securely mounted and properly aligned to avoid misalignment during use.
- Always use the mount in accordance with the manufacturer's instructions to ensure optimal performance and safety.
- Avoid using the mount in adverse weather conditions that could affect visibility or handling.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that your AK47 is unloaded and in a safe condition.
- Gather the necessary tools, including the provided allen wrench.

### 2. Installation Steps:

- Remove the original steel gas tube and upper handguard from your AK47.
- Align the UltiMAK M1B optic mount with the barrel of the rifle.
- Clamp the mount securely to the barrel, ensuring that it is positioned below the iron sight axis.
- Tighten the clamps using the provided screws and allen wrench. Ensure that the mount is stable and does not move.
- Verify that the mount allows for cowitnessing with your iron sights when using a tubular reflex sight.

### 3. Usage:

- When aiming, maintain a natural hold without the need for a comb riser.
- Practice using the mount with both eyes open for target acquisition.
- Regularly check the alignment of the optic to ensure accuracy.

## **Disposal Instructions**

- Follow local regulations for the disposal of aluminum and steel materials.
- If the mount is damaged beyond repair, dispose of it in accordance with local waste management guidelines.
- Do not dispose of the mount in regular household waste. Contact local recycling centers for proper disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the AK SCOUT MOUNT MODE M1B ULTIMAK AK47 SCOPE MOUNT, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our top priorities. Enjoy using your UltiMAK AK47 scope mount responsibly!
