## Rounded Blade Edges Won't Snag On Clothing Or Holsters

Enjoy the accuracy of a fully adjustable, competition-style rear sight in a package suitable for daily carry. Beveled edges on sight body and radiused corners on blade minimize chances of snagging on clothing or holster. Blade, sight body, and base are EDM-wire machined from high-grade, 4140 billet steel, then heat-treated to Rc 28-32 to retain the extra-tight tolerances. Front hinge pin is hardened to Rc 60 for reliable, long-lasting service without breakage. Fine serrations on the rear sight blade surface reduce light reflection to enhance sight pick up in all light conditions. Consistent, click adjustable detents for windage and elevation provide precise, repeatable settings.
