## Added Padding Protects Rifle & Optics

A shell of abrasion- and mildew-resistant, 1000 denier, Nytaneon nylon surrounds 3/8" of padding on the top and bottom of the case for snug, no-slip protection of your rifle and its expensive optics. Padding on the bottom of the case covers the zipper tracks to protect your rifle from scratches. A double-stitched, nylon carry handle is attached to the case with multi-reinforced stitching; an adjustable, padded sling offers a tactical-carry option. All cases accept rifles with mounted optics and fully unzip to be used as a shooting mat. Standard Rifle case is available in 34", 37", and 41" lengths and features four high-capacity magazine pouches (five on 41" case) with positive-close hook-and-loop patch closures, plus zippered compartments in the front for additional storage.
