Features a friction locking mechanism that eliminates movement between the buffer tube and buttstock for a solid “feel” when mounting rifle to shoulder. Heavy duty, spring-loaded hand lever allows fast length-of-pull adjustments. Nylon polymer body provides maximum impact and heat resistance, with molded-in reinforcements at stress points. Accepts a variety of ambidextrous sling attachment options, including web slings and single-point, push-button sling mounts. Comb contour is wider than standard issue M4 stock to help shooter maintain a solid cheekweld. Synthetic rubber buttpad increases comfort and helps prevent slippage. Commercial fits larger diameter 1.17" O.D. commercial buffer tubes.
