

MAGNETIC SOFT JAWS - WAGNER INDUSTRIES INC CHanneled SOFT JAWS

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Jaws](#)

Get A Grip On Your Guns

Soft, yet extremely rigid, polyurethane vise jaws fit comfortably in a 4" or 5" vise and are held in place by embedded magnets. Non-slip surface grips precious firearms firmly without crushing, marring, or scratching. Top lip fits the top of your vise jaws adding two inches to allow extra protection and more work area. Surface resists oils and wipes clean. Each set comes with a separate polyurethane cover for vise screws or anvils so you can be absolutely sure that no part of your guns or tools will come in contact with the vise. Channeled soft jaws have all the same features as the Standard version with the addition of machined vertical and horizontal channels with 5/8" radius for an improved grip on contoured parts such as barrels and actions.

Safety Instruction Guide for MAGNETIC SOFT JAWS

Introduction

Thank you for choosing the MAGNETIC SOFT JAWS by Wagner Industries Inc. These polyurethane vise jaws are designed to provide a safe and effective solution for holding firearms and tools securely. This guide contains important safety instructions and usage recommendations to ensure your safety and the longevity of the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described.
- Regularly inspect the product for any signs of wear or damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Always follow the manufacturer's instructions for installation and usage.
- Report any unsafe product experiences or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure that the vise jaws are securely attached to the vise before use.
- Avoid using the product with excessive force that may lead to damage or malfunction.
- Use the product in a wellventilated area to prevent inhalation of any fumes from materials being worked on.
- Do not use the product on materials that may cause hazardous reactions with polyurethane.
- Ensure that the surface of the jaws is clean and free from debris before placing any items onto them.
- Do not exceed the recommended weight limits when using the vise jaws to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure the vise is clean and free from any debris.
- Align the magnetic soft jaws with the existing vise jaws.
- Allow the embedded magnets to securely hold the soft jaws in place.

2. Usage:

- Place the item to be held securely between the soft jaws.
- Adjust the vise to apply gentle pressure, ensuring the item is firmly held without excessive force.
- Regularly check the grip during use to ensure the item remains secure.

3. Maintenance:

- Wipe the surface of the jaws with a clean, dry cloth after each use to maintain cleanliness.
- Inspect the jaws periodically for any signs of wear or damage, and replace them if necessary.

Disposal Instructions

- Dispose of the product in accordance with local regulations for polyurethane materials.
- Do not incinerate the product, as it may release harmful substances.
- Consider recycling options where available, or contact local waste management authorities for proper

disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, usage, or additional support, please refer to the manufacturer's contact details provided with your product packaging.
