## Rock-Solid Mounts With Quick-Detach System

Quick-release lever-lock system clamps solidly to flattop rail and will not work loose even under heavy recoil—the more force acting on the lever, the tighter it locks. Depress the release tab to swing the lever open, and the mount easily lifts off the rifle. Adjustable with a flat head screwdriver or even a coin for an ultra-secure, no-slip fit on almost any Picatinny or Weaver-style rail, including over- or under-sized commercial rails. Lever may be configured to lock to the front or the rear to suit the operator's preference. Large locking bar on the side of the mount engages the maximum amount of rail area, while the crossbolt and two integral locking lugs ensure rock-solid engagement of rail slots to prevent movement under recoil. Five heavy duty steel hex head screws (three on top, two on bottom) clamp the vertically split ring halves together. Cutouts in the ring sides and in the base reduce weight without sacrificing strength. Quick-Release Scope Mount one-piece base with dual-lever system provides the same solid mounting and fast removal and reattachment.

## Attributes

- Name: [30MM 0 MOA SCOPE MOUNT, BLACK](#)
- Manufacturer: [AMERICAN DEFENSE MANUFACTURING](#)
- Product no.: 100003654
- Mfr. No.: ADRECONS30STD

# Safety Instruction Guide for RECONS NO OFFSET SCOPE MOUNT 30MM 0 MOA SCOPE MOUNT, BLACK

## Introduction

Thank you for choosing the RECONS NO OFFSET SCOPE MOUNT. This guide provides important safety instructions and usage information to ensure the safe and effective operation of your scope mount. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the scope mount is compatible with your rifle and scope before installation.
- Always inspect the scope mount for any damage or wear before each use.
- Keep the scope mount and all accessories out of reach of children and unauthorized users.
- Use the product only for its intended purpose as described in this guide.
- If you experience any issues or concerns regarding the product, discontinue use and seek assistance.

## Specific Safety Precautions for Use

- The quickrelease leverlock system is designed to hold securely under heavy recoil. Ensure that the lever is fully engaged before use.
- Always check the tightness of the mount before shooting to avoid any potential accidents.
- If the mount is not locking securely, do not use it until the issue is resolved.
- Be cautious when adjusting the mount with tools; overtightening can damage the mount or the rail.
- Avoid using the mount in extreme environmental conditions that may affect its performance.

## Instructions for Installation and Usage

### 1. Installation

- Ensure your rifle is unloaded and pointed in a safe direction.
- Identify the Picatinny or Weaverstyle rail on your rifle.
- Align the scope mount with the rail, ensuring the locking bar engages securely.
- Use a flat head screwdriver or coin to tighten the screws on the mount. Ensure they are secure but do not overtighten.
- Adjust the lever to lock to your preferred position (front or rear).

### 2. Usage

- To remove the scope mount, depress the release tab and swing the lever open.
- Lift the mount off the rifle carefully.
- To reattach, align the mount with the rail and engage the lever until it locks securely.
- Regularly check the mount during use for any signs of wear or looseness.

## Disposal Instructions

- Dispose of the scope mount in accordance with local regulations for aluminum and other materials.
- Do not dispose of the product in household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the RECONS NO OFFSET SCOPE MOUNT, please refer to your retailer or manufacturer's support resources for assistance.

Thank you for following these safety instructions. Enjoy your shooting experience safely and responsibly.
