

# O-RING CLEANING JAGS - TCS .44 CAL. CLEANING JAG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

## Increases Patch Pressure On Bore For Improved Cleaning Action

Solid aluminum jags with rubber O-rings are ideal for cleaning the bore of your gun without worrying about damaging the rifling. O-rings press patch firmly into bore surface for efficient cleaning action on powder, lead, copper, and plastic fouling. For use with patches, steel wool, and bronze wool. Shotgun and Black Powder jags are color coded; Rifle/Handgun jags are numbered for easy identification. In order to use TCS Manufacturing jags, you must use round patches that are .015" thick.

# ORING CLEANING JAGS TCS .44 CAL. CLEANING JAG Safety Instruction Guide

## Introduction

Thank you for choosing the ORING CLEANING JAGS TCS .44 CAL. CLEANING JAG. This product is designed to provide an efficient cleaning solution for the bore of your firearm. To ensure your safety and the proper use of this product, please carefully read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the firearm is unloaded before using the cleaning jag.
- Keep the cleaning jags and all cleaning materials out of reach of children.
- Inspect the cleaning jag for any signs of damage before each use. Do not use if damaged.
- Use only round patches that are .015" thick with the cleaning jags.
- Be aware of potential hazards associated with cleaning materials, such as solvents and oils.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that the cleaning area is wellventilated to avoid inhaling fumes from cleaning solvents.
- Avoid contact with skin and eyes when using cleaning solvents. Wear gloves and safety goggles if necessary.
- Do not force the cleaning jag into the bore. If it does not fit easily, check for obstructions.
- Follow the recommended cleaning procedures to avoid damaging the rifling of the barrel.
- Keep the cleaning jags away from heat sources and open flames, as some cleaning materials may be flammable.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary materials: cleaning jag, cleaning patches, and any cleaning solvents or oils you plan to use.

### 2. Attaching the Cleaning Jag:

- Select the appropriate cleaning jag for your firearm caliber.
- Attach the cleaning jag to the cleaning rod by screwing it onto the male threads (832 tpi, or 1032 tpi for .50 BP).

### 3. Using the Cleaning Jag:

- Take a round patch that is .015" thick and press it firmly against the rubber Oring on the cleaning jag.
- Insert the cleaning jag into the bore of the firearm gently, ensuring it fits properly.
- Pull the cleaning rod back and forth through the bore to clean effectively.
- Repeat the process as necessary, using clean patches as needed.

### 4. PostCleaning:

- After cleaning, ensure that all cleaning materials are removed from the bore.
- Wipe down the exterior of the firearm with a clean cloth.
- Store the cleaning jags and materials in a safe place, away from children.

## **Disposal Instructions**

- Dispose of used cleaning patches and any chemical cleaning materials in accordance with local regulations.
- Do not dispose of cleaning materials in regular household waste. Check for hazardous waste disposal options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the ORING CLEANING JAGS TCS .44 CAL. CLEANING JAG, please contact the manufacturer or refer to the product packaging for additional information.

By following these safety instructions, you can ensure the safe and effective use of the ORING CLEANING JAGS TCS .44 CAL. CLEANING JAG. Always prioritize safety in your cleaning practices. Thank you for your attention to these important guidelines.
