

# SLIDE-GLIDE FIREARMS LUBRICANT - BRIAN ENOS SLIDE-GLIDE STANDARD

[Gun Cleaning & Chemicals](#) > [Oils & Lubricants](#) > [Lubricant & Protectant Oils](#)

## Protects From Corrosion & Wear

High-tech, extreme pressure greases protect firearms from corrosion and wear, and help improve overall operation. Advanced formula will not attract dust like conventional oils and greases such as lithium, or lithium-based metallic greases containing molybdenum or graphite. Non-creeping to stay between moving parts for long lasting protection during continuous cycling. Standard is a medium viscosity grease specifically formulated for temperatures of 60° F (16° C) or higher. Works well in non-compensated pistols, all shotguns and rifles. Not recommended for compensated pistols, .22 rimfire, or revolvers. Lite is a thin viscosity grease formulated for temperatures 30° F (-1° C) or higher. Works well in non-compensated and compensated pistols, revolvers, shotguns and rifles, including .22 rimfire. Provides superior lubrication for Glock® pistol connectors. Blended specifically to provide maximum reliability in all IPSC Open guns, carry and duty pistols.

## Attributes

- Name: [BRIAN ENOS SLIDE-GLIDE STANDARD](#)
- Manufacturer: [BRIAN ENOS](#)
- Product no.: 100004080
- Mfr. No.: NONE
- Size: .5 oz
- Delivery weight: 0.023kg
- Shipping height: 18mm
- Shipping width: 132mm
- Shipping length: 147mm

# SLIDEGLIDE FIREARMS LUBRICANT SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing SLIDEGLIDE FIREARMS LUBRICANT by Brian Enos. This guide provides essential safety instructions to ensure the safe and effective use of this lubricant. Please read the following information carefully before using the product.

## General Safety Guidelines

- Ensure safe use of the lubricant by following all instructions.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Keep out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in this guide.
- In case of accidental exposure or ingestion, seek medical advice immediately.

## Specific Safety Precautions for Use

- **Personal Protection:** Wear gloves and safety goggles to avoid skin and eye contact.
- **Ventilation:** Use the product in a wellventilated area to avoid inhaling fumes.
- **Avoid Open Flames:** Keep away from open flames and sources of ignition, as the lubricant may be flammable.
- **Compatibility:** Do not use the lubricant on compensated pistols, .22 rimfire firearms, or revolvers unless specified.
- **Temperature Considerations:** Use the Standard version in temperatures of 60° F (16° C) or higher, and the Lite version in temperatures of 30° F (1° C) or higher.

## Instructions for Installation and Usage

1. **Preparation:** Ensure the firearm is unloaded and in a safe condition before applying the lubricant.
2. **Application:**
  - For Standard Grease: Apply a small amount to moving parts of noncompensated pistols, shotguns, and rifles.
  - For Lite Grease: Apply to both compensated and noncompensated pistols, revolvers, shotguns, and rifles.
3. **Maintenance:** Regularly check and reapply lubricant as necessary to maintain optimal performance.
4. **Cleaning:** Clean excess lubricant from surfaces to prevent attracting dust and debris.

## Disposal Instructions

- Dispose of any unused lubricant and containers according to local regulations.
- Do not pour lubricant down drains or into water sources.
- Contact local waste management authorities for specific disposal guidelines.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the SLIDEGLIDE FIREARMS LUBRICANT, please refer to the appropriate contact points as listed on the product packaging or your retailer.

## Conclusion

By following these safety instructions, you can ensure the effective and safe use of SLIDEGLIDE FIREARMS LUBRICANT. Always prioritize safety and consult the guidelines whenever necessary. Thank you for your attention to these important safety measures.
