

CUSTOM SKELETONIZED STRIKER for GLOCK® - ZEV TECHNOLOGIES CUSTOM SKELETONIZED STRIKER

[Handgun Parts](#) > [Action Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

Lightweight For Fast Locktime; Mirror-Polished For Smoothness & Speed

Drop-in replacement for factory striker has 15-20% less mass and a highly polished surface for fast lock time and a light, smooth-feeling trigger pull, plus ultra-fast reset for minimum delay between follow-up shots. Precision machined from solid stainless steel with skeletonized cuts like those used on bulk heads in aircraft to reduce weight without sacrificing strength. Hard, polished surface resists galling, wear, and corrosion for years of reliable service. For best results, use with reduced-power striker spring from GlockWorx Competition Spring Kit, available separately.

CUSTOM SKELETONIZED STRIKER for GLOCK®

Safety Instruction Guide

Introduction

Thank you for choosing the CUSTOM SKELETONIZED STRIKER for GLOCK® from ZEV TECHNOLOGIES. This product is designed to enhance the performance of your Glock pistol while ensuring safety during its use. Please read this safety instruction guide carefully to ensure proper handling, installation, and maintenance of your striker.

General Safety Guidelines

- Ensure that all firearms are treated as if they are loaded at all times.
- Always point the firearm in a safe direction.
- Keep your finger off the trigger until you are ready to shoot.
- Store this product and your firearm securely, out of reach of children and unauthorized users.
- Familiarize yourself with your firearm's manual and operation before using this product.
- Report any unsafe products and accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only with Glock pistols chambered in 9mm, .357 Sig, and .40 S&W.
- Ensure that the striker is installed correctly to avoid malfunction.
- Always use a reducedpower striker spring from GlockWorx Competition Spring Kit for optimal performance.
- Inspect the striker regularly for wear and damage.
- Do not modify the striker or any related components beyond the manufacturer's specifications.
- If you experience any issues during use, cease operation immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: a punch tool and a small hammer.

2. Installation

- Remove the slide from your Glock pistol according to the manufacturer's instructions.
- Carefully remove the factory striker from the slide.
- Inspect the striker channel for debris or obstructions.
- Insert the CUSTOM SKELETONIZED STRIKER into the striker channel.
- Ensure that the striker is seated properly and that it moves freely within the channel.
- Reassemble the slide and ensure that all components are functioning correctly.

3. Usage

- After installation, perform a function check to ensure proper operation before live firing.
- Use the firearm in a controlled environment, adhering to all safety protocols.

Disposal Instructions

- Dispose of any unused or damaged products in accordance with local regulations.
- Do not dispose of the striker in regular waste; check for recycling options in your area.
- If you are unsure how to dispose of the product safely, consult your local waste management authority.

Contact Information for Further Support

For any inquiries regarding the CUSTOM SKELETONIZED STRIKER for GLOCK®, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website for additional resources and support.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on your responsible handling and use of this product. Enjoy your enhanced shooting experience with the CUSTOM SKELETONIZED STRIKER for GLOCK®!
