

1911 ARMORER'S BLOCK - 10-8 PERFORMANCE ARMORER'S BLOCK

[Gunsmith Tools](#) > [Handgun Tools](#) > [Bench & Vise Blocks](#)

For Fast, Easy Maintenance, While Protecting Pistol & Hands From Damage

Handy bench block machined from super-tough, glass-reinforced nylon supports 1911 pistol components so you can perform a variety of repair, assembly/disassembly, and accurizing tasks quickly and easily. Securely holds the frame on its side, so you can work on it without risk of damaging the finish. Helps you check hammer/sear engagement, remove hammer strut pin, remove mainspring housing, and holds thumb safety for easy filing of sear stop stud engagement surface. Use to tension the extractor off the slide, so you don't risk scratching the slide, and retain the extractor while filing and honing the claw. Holds the barrel during link pin removal, with blind holes to catch the pins so they don't get lost. You can even place the frame between two blocks and clamp it in a bench vise for slide fitting.

1911 Armorer's Block Safety Instructions

Introduction

Thank you for choosing the 1911 Armorer's Block by 108 Performance. This handy bench block is designed to support 1911 pistol components during repair, assembly, disassembly, and accurizing tasks. It is essential to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

General Safety Guidelines

- Always inspect the Armorer's Block for any signs of damage before use.
- Ensure that the workspace is clean and free of any clutter to prevent accidents.
- Use the Armorer's Block only for its intended purpose as described in the product text.
- Keep the Armorer's Block out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- When working with the frame, ensure it is securely held in the block to avoid slipping.
- Be cautious when removing or inserting pins to avoid injury.
- Use appropriate tools when filing or honing components to minimize the risk of accidents.
- Always wear safety goggles to protect your eyes from debris.
- Avoid using excessive force that may cause damage to the components or the block itself.
- Do not use the Armorer's Block if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Preparing the Workspace:

- Clear a flat, stable surface to place the Armorer's Block.
- Gather all necessary tools and components you will be working on.

2. Using the Armorer's Block:

- Place the Armorer's Block on the work surface with the appropriate side facing up.
- Securely hold the 1911 frame in place by inserting it into the designated area of the block.
- Use the block to check hammer/sear engagement and perform tasks such as removing the hammer strut pin and mainspring housing.
- When filing the thumb safety, ensure it is held securely to prevent slipping.

3. Tensioning the Extractor:

- Position the extractor off the slide in the Armorer's Block.
- This allows you to file and hone the claw without scratching the slide.

4. Removing the Link Pin:

- Use the blind holes in the block to catch the link pins during removal to ensure they do not get lost.

5. Clamping the Frame:

- If needed, place the frame between two blocks and clamp it in a bench vise for slide fitting.

Disposal Instructions

- Dispose of the Armorer's Block in accordance with local regulations.
- Do not dispose of the product in regular household waste if it is damaged or no longer usable.
- Check with local waste management for proper disposal methods for plastic materials.

Contact Information for Further Support

For any safety inquiries or further support, please refer to the appropriate local authorities or product support channels.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your 1911 Armorer's Block.
