## **Offset Design For Fast, Easy Access To Activation Switches**

Consistent with the VTAC Mission, the Viking Tactics Light Mount was designed for today's modern warriors- providing a light-weight and versatile option to mount a flashlight onto any Picatinny rail system. Made of a Modified Acrylic PVC Alloy Thermoplastic with high impact and abrasion resistant qualities which have been proven to withstand the harshest environments, the Viking Tactics Light Mount is designed so that you can mount your light so that it is out of your field of view and easily activated. This new and improved version of the original VTAC Light Mount Design gives you enormous flexibility. It will allow you to mount most lights with a .80 or 1" diameter and will fit the VTAC-L4 as well as the inexpensive Surefire G2 Nitrolon, Executive Series, and many others. The sleek VTAC design even offers a position in the insert to accommodate the clip on the light. Depending on your mounting preferences, the VTAC can be mounted in such a way that the light can be activated using a tape switch or it can be mounted in such a manner allowing you activate your light using the push button on the back of the light. (Note: Flashlights and firearms not included and must be purchased separately). The VTAC Light Mount is impervious to most chemicals, solvents and oils and its highly advanced thermoplastics will not shrink. With the high quality and innovative design that you expect from a Viking Tactics product, the VTAC Light Mount will keep you in the light and out of the dark. The new Surefire G2X body does not fit this light mount without some rigging.

## **Attributes**

# **LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT, COYOTE TAN Safety Instruction Guide**

## **Introduction**

Thank you for choosing the LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this guide carefully before installation and use.

## **General Safety Guidelines**

- Always ensure that the LIGHT MOUNT is compatible with your flashlight before installation.
- Inspect the mount for any visible damage before use. Do not use if damaged.
- Keep the mount and flashlight out of reach of children to prevent accidental use or injury.
- Avoid exposure to extreme temperatures, chemicals, or solvents that may affect the integrity of the mount.
- Regularly check the mount for wear and tear, and replace it if necessary.
- Follow all local laws and regulations regarding the use of flashlights and firearms.

## **Specific Safety Precautions for Use**

- Ensure that the flashlight is securely mounted to prevent it from falling off during use.
- Do not exceed the recommended weight limit of the mount.
- Use the mount in a manner that does not obstruct your view or the operation of your firearm.
- When using a tape switch or push button, ensure that your finger is clear of the light beam to avoid accidental activation.
- If you experience any issues with the mount or flashlight, cease use immediately and consult a professional.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary tools and ensure you have a clean workspace.
- Ensure your flashlight has a diameter of .800" with spacer or 1" for compatibility with the mount.

### **2. Installation:**

- Align the mount with the desired position on the Picatinny rail.
- Secure the mount using the provided screws, ensuring it is tightly fastened.
- Attach your flashlight to the mount, ensuring it is secure and stable.

### **3. Usage:**

- Activate the flashlight using either the tape switch or the push button located on the back of the light.
- Adjust the position of the flashlight as needed for optimal visibility without obstructing your view.

### **4. PostUse:**

- After use, inspect the mount and flashlight for any signs of wear.

- Store the mount and flashlight in a cool, dry place.

## **Disposal Instructions**

- Dispose of the LIGHT MOUNT in accordance with local regulations regarding plastic and electronic waste.
- Do not incinerate the mount as it may release harmful substances.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please consult the manufacturer or your point of purchase. Always refer to the official website for the most up-to-date information on safety and product recalls.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT.
