

# O-RING CLEANING JAGS - .30 CAL. CLEANING JAG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

## Increases Patch Pressure On Bore For Improved Cleaning Action

Solid aluminum jags with rubber O-rings are ideal for cleaning the bore of your gun without worrying about damaging the rifling. O-rings press patch firmly into bore surface for efficient cleaning action on powder, lead, copper, and plastic fouling. For use with patches, steel wool, and bronze wool. Shotgun and Black Powder jags are color coded; Rifle/Handgun jags are numbered for easy identification. In order to use TCS Manufacturing jags, you must use round patches that are .015" thick.

## Attributes

## Safety Instruction Guide

### Introduction

Thank you for choosing the ORING CLEANING JAGS .30 CAL. CLEANING JAG. This product is designed to effectively clean the bore of your gun while protecting the rifling. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- Ensure safe use of the ORING CLEANING JAGS by following the guidelines below:
  - Use only as intended and according to the instructions provided.
  - Store in a cool, dry place away from direct sunlight and out of reach of children.
  - Regularly inspect the jags for any signs of damage or wear before use.
  - Always handle cleaning materials with care to avoid injury.
  - Be aware of your surroundings while cleaning your firearm to prevent accidents.

### Specific Safety Precautions for Use

- When using the ORING CLEANING JAGS, please observe the following precautions:
  - Only use round patches that are .015" thick to ensure proper fit and functionality.
  - Do not force the jag into the bore; this may cause damage to the firearm.
  - Avoid using excessive force when cleaning to prevent injury or damage.
  - Ensure the firearm is unloaded and pointed in a safe direction before beginning the cleaning process.
  - Be cautious of potential lead or chemical exposure; consider using gloves and a mask if necessary.

### Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the ORING CLEANING JAGS:

#### 1. Preparation:

- Ensure your firearm is unloaded and safe to handle.
- Gather necessary cleaning materials, including patches and cleaning solvents.

#### 2. Attaching the Jag:

- Select the appropriate jag for your firearm caliber.
- Screw the jag onto the cleaning rod, ensuring a secure fit. The male threads should match the cleaning rod's specifications (832 tpi for most jags, 1032 tpi for .50 BP).

#### 3. Using the Jag:

- Attach a round patch that is .015" thick to the jag.
- Apply cleaning solvent to the patch if desired.
- Insert the jag into the bore and gently push it through, allowing the Orings to press the patch firmly against the bore surface.
- Withdraw the jag carefully and repeat as necessary until the bore is clean.

#### 4. PostCleaning:

- After cleaning, remove the jag from the cleaning rod.
- Clean the jag according to the manufacturer's instructions to maintain its condition.
- Store the jag and cleaning materials in a safe place.

## **Disposal Instructions**

- Dispose of any used patches, cleaning solvents, or materials according to local regulations. Do not dispose of them in regular household waste if they are considered hazardous. Check with your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

- For safety inquiries or concerns regarding the ORING CLEANING JAGS, please refer to your local regulations or contact the retailer from whom you purchased the product.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective cleaning experience with the ORING CLEANING JAGS .30 CAL. CLEANING JAG. Always prioritize safety and be informed about proper usage to maintain both your firearm and your wellbeing. Thank you for your attention to these important guidelines.
