Low-Profile Combat Sights With Easy-To-See Tritium Dots For Fast Targeting In Low Light

Fixed, low-profile combat sights are drop-in replacements for factory sights and feature streamlined contours with rounded corners to help prevent snags and hanging-ups. Precision-machined steel sight bodies sit low in the slide to resist catching on clothing during the draw, yet stand up to the abuse of hard operational and competition use. Night sights have two self-illuminating, Trijicon® Tritium inserts in the rear sight and one in the front blade to provide an easy-to-see, 3-dot sight picture in low-light conditions. Helps you acquire the sights and get on target quickly under stress. Works like a simple, 3-white-dot system for enhanced visibility in daylight. Nothing to turn on: as the ambient light gets lower, the Trijicon® Tritium dots start glowing. Ghost Ring rear aperture sight uses the eye's natural ability to center objects in a circle to aid in fast target acquisition. Tritium dots on each side of the ghost ring are smaller than the front sight dot to eliminate confusion during sight alignment.

Pro, G/G. fits 17,19,22,23,24,26,27,33,34,35,37,38,39

PRO TRITIUM NIGHT SIGHT SETS FOR GLOCK®

Consumer Safety Instruction Guide

Introduction

Thank you for choosing the PRO TRITIUM NIGHT SIGHT SETS FOR GLOCK® by AMERIGLO. This guide provides essential safety instructions to ensure the safe use and installation of your night sight set. Please read this guide carefully before use.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the night sights by following all instructions provided in this guide.
- **Enhanced Recalls:** Stay informed about product recalls. Check for updates regularly.
- **Online Shopping:** If purchased online, ensure the seller complies with safety standards.
- **Special Consumer Focus:** Extra care should be taken when handling the product around children.
- **EU Contact Point:** For any safety inquiries, refer to the EU-based contact provided by your retailer.
- **Rapid Alerts:** Stay updated on product safety through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure your firearm is unloaded before installing or handling the night sights.
- Do not attempt to install the night sights if you are not familiar with firearm maintenance. Consult a professional gunsmith if unsure.
- Keep the night sights out of reach of children to prevent accidental use.
- Check the sights regularly for any signs of damage or wear. Do not use damaged sights.
- Use the sights only with compatible Glock models as specified: 17, 19, 22, 23, 24, 26, 27, 33, 34, 35, 37, 38, and 39.

Instructions for Installation and Usage

Installation Instructions: 1. Ensure your firearm is unloaded and pointed in a safe direction. 2. Remove the existing sights from your Glock firearm using appropriate tools. 3. Align the front sight with the dovetail on the slide and press it into place. Ensure it is secure. 4. Install the rear sight by aligning it with the rear dovetail. Ensure it fits snugly. 5. Use a sight pusher tool if necessary to avoid damaging the sights or the firearm. 6. Once installed, ensure both sights are properly aligned and secure.

Usage Instructions: * Use the sights in lowlight conditions to take full advantage of the Tritium illumination. * Familiarize yourself with the sight picture before using your firearm in a live environment. * Practice regularly to maintain proficiency with your new sights.

Disposal Instructions

- Dispose of any damaged or nonfunctional sights according to local regulations.
- Do not dispose of sights in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the PRO TRITIUM NIGHT SIGHT SETS FOR GLOCK®, please refer to the contact information provided by your retailer or manufacturer.

Thank you for your attention to these safety guidelines. Your safety and the safety of others is our priority.
