# M1 Garand Gas Cylinder Screw Plug Safety Instructions

## Introduction

Thank you for purchasing the M1 Garand Gas Cylinder Screw Plug from Fulton Armory. This product is designed as a direct replacement for earlystyle solid screw plugs and can also replace later valvestyle plugs to enhance the performance of your M1 Garand rifle. This safety instruction guide provides essential information to ensure safe use and proper handling of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always ensure that the firearm is unloaded before attempting to install or replace the gas cylinder screw plug.
- Inspect the gas cylinder screw plug for any visible damage before installation. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- Use the product only as intended and in accordance with the manufacturer's specifications.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the rifle is securely placed on a stable surface while performing any maintenance.
- Wear appropriate safety gear, including safety glasses and gloves, when handling the gas cylinder screw plug.
- Avoid overtightening the screw plug to prevent damage to the gas cylinder or assembly.
- Follow the specific installation instructions to ensure proper fit and function.
- If you are unfamiliar with firearm maintenance, seek assistance from a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the rifle is completely unloaded and the chamber is clear.
- Gather necessary tools, including a wrench suitable for the gas cylinder screw plug.

### 2. Installation:

- Locate the gas cylinder on your M1 Garand rifle.
- Remove the existing screw plug by turning it counterclockwise with the appropriate tool.
- Clean the threads inside the gas cylinder to remove any debris or old lubricant.
- Take the new gas cylinder screw plug and insert it into the gas cylinder by threading it in clockwise.
- Tighten the screw plug securely, but avoid overtightening to prevent damage.

### 3. Usage:

- After installation, check the gas cylinder assembly to ensure it is secure.
- Test the rifle in a safe environment to ensure proper cycling and function with the new screw plug.
- Monitor for any signs of gas leaks during operation. If leaks are detected, cease use and inspect the installation.

## Disposal Instructions

- Dispose of any old or damaged gas cylinder screw plugs in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, consider recycling options where available.

## Contact Information for Further Support

For any questions or concerns regarding the M1 Garand Gas Cylinder Screw Plug, please refer to the manufacturer's contact information provided with your product. It is essential to seek professional advice if you are unsure about installation or usage.

Thank you for prioritizing safety and responsible use of your M1 Garand Gas Cylinder Screw Plug. Enjoy your enhanced shooting experience!
