

# M14/M1A REINFORCED QUICK DISCONNECT POST - SADLAK INDUSTRIES REINFORCED QD POST

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Rifle Swivel Sets](#)

## Heavy Duty Bipod Attachment Point

Reinforced post replaces the front sling swivel stud to provide a more secure attachment point for quick-detach bipods. Two steel plates provide a much greater surface area than the standard swivel post to help ensure a tight hold during heavy recoil and rough handling. One plate fits in the barrel channel, the other on the outside of the stock, and they clamp together with a steel Allen head screw and threaded swivel stud. Can be permanently bedded in the stock for added support. Accepts all bipods that mount to the standard sling swivel stud.

## Attributes

- Name: [SADLAK INDUSTRIES REINFORCED QD POST](#)
- Manufacturer: [SADLAK INDUSTRIES](#)
- Product no.: 100005336
- Mfr. No.: 140050

# M14/M1A Reinforced Quick Disconnect Post Safety Instructions

## Introduction

Thank you for choosing the M14/M1A Reinforced Quick Disconnect Post from Sadlak Industries. This product is designed to enhance your rifle's functionality by providing a secure attachment point for quickdetach bipods. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle firearms and firearm accessories with care.
- Ensure that the product is compatible with your firearm before installation.
- Follow all local laws and regulations regarding firearm accessories.
- Store the product in a safe place, out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before each use.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the rifle is unloaded before installing or adjusting the quick disconnect post.
- Do not exceed the weight limit for bipods attached to the post.
- Be aware of the potential for recoil when using the rifle with the bipod attached.
- Avoid using the product in extreme weather conditions that may affect its performance.
- Do not modify the product in any way that could compromise its integrity or safety.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the existing front sling swivel stud from your rifle.
- Place one steel plate in the barrel channel and the other on the outside of the stock.
- Align the plates and secure them together using the provided steel Allen head screw and threaded swivel stud.
- Ensure that the assembly is tight and secure before proceeding to use the rifle.

### 2. Usage:

- Attach the bipod to the quick disconnect post by aligning it with the swivel stud.
- Ensure that the bipod is locked in place before using the rifle.
- Regularly check the attachment point for any signs of looseness or wear during use.

## Disposal Instructions

- When disposing of the product, follow local regulations for the disposal of metal and firearm accessories.
- Ensure that the product is rendered unusable before disposal to prevent unauthorized use.

## Contact Information for Further Support

For any questions or concerns regarding the M14/M1A Reinforced Quick Disconnect Post, please consult the manufacturer's website or contact their customer support directly.

Thank you for your attention to these safety guidelines. Enjoy your enhanced shooting experience with the

M14/M1A Reinforced Quick Disconnect Post!
