

# LIGHT MOUNT - VIKING TACTICS FLASHLIGHT/LASER MOUNT, FLAT DARK EARTH

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Mounts](#)

## Offset Design For Fast, Easy Access To Activation Switches

Consistent with the VTAC Mission, the Viking Tactics Light Mount was designed for today's modern warriors- providing a light-weight and versatile option to mount a flashlight onto any Picatinny rail system. Made of a Modified Acrylic PVC Alloy Thermoplastic with high impact and abrasion resistant qualities which have been proven to withstand the harshest environments, the Viking Tactics Light Mount is designed so that you can mount your light so that it is out of your field of view and easily activated. This new and improved version of the original VTAC Light Mount Design gives you enormous flexibility. It will allow you to mount most lights with a .80 or 1" diameter and will fit the VTAC-L4 as well as the inexpensive Surefire G2 Nitrolon, Executive Series, and many others. The sleek VTAC design even offers a position in the insert to accommodate the clip on the light. Depending on your mounting preferences, the VTAC can be mounted in such a way that the light can be activated using a tape switch or it can be mounted in such a manner allowing you activate your light using the push button on the back of the light. (Note: Flashlights and firearms not included and must be purchased separately). The VTAC Light Mount is impervious to most chemicals, solvents and oils and its highly advanced thermoplastics will not shrink. With the high quality and innovative design that you expect from a Viking Tactics product, the VTAC Light Mount will keep you in the light and out of the dark. The new Surefire G2X body does not fit this light mount without some rigging.

## Attributes

# **LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT, FLAT DARK EARTH Safety Instruction Guide**

## **Introduction**

Thank you for choosing the LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before installation and use.

## **General Safety Guidelines**

- Ensure the product is used in accordance with the manufacturer's instructions.
- Regularly inspect the light mount for any signs of damage or wear before use.
- Do not exceed the specified weight limit for the mount.
- Keep the product out of reach of children and pets.
- Avoid exposing the mount to extreme temperatures or harsh chemicals.
- If you experience any issues during installation or use, discontinue use immediately and seek assistance.

## **Specific Safety Precautions for Use**

- Ensure that the flashlight you are using is compatible with the mount (fits .800" with spacer or 1" diameter).
- Make sure the flashlight is securely attached before use to prevent it from falling off during operation.
- When activating the flashlight, ensure your fingers are clear of the beam path to avoid accidental injury.
- Do not modify the light mount or flashlight in any way that could compromise safety or functionality.
- Use caution when handling the mount and flashlight, especially in lowlight conditions.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Select a suitable Picatinny rail location on your firearm where you wish to mount the flashlight.
- Align the mount with the rail and slide it into place until it is securely fitted.
- Tighten the mounting screws using an appropriate tool to ensure a secure fit.
- If necessary, use spacers to accommodate different flashlight diameters.

### **2. Using the Light Mount:**

- Ensure the flashlight is properly mounted and secured in the light mount.
- Depending on your preference, activate the light using either the tape switch or the push button on the flashlight.
- Regularly check the security of the mount and flashlight during use, especially after extended periods of operation.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding electronic waste and plastics.
- Do not dispose of the product in regular household waste.
- Consider recycling options for the materials where possible.

## **Contact Information for Further Support**

For any inquiries or support regarding the LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT, please refer to the manufacturer's contact information provided on the packaging or product documentation.

## **Conclusion**

By following these safety instructions, you can ensure the safe and effective use of the LIGHT MOUNT VIKING TACTICS FLASHLIGHT/LASER MOUNT. Always prioritize safety and stay informed about any updates or recalls related to your product. Thank you for your attention to these guidelines.
