Combines A Secure Grasp With Non-Snag Carry

Durable machined G10 fiberglass grips are almost impervious to solvents, moisture, and expansion/contraction due to temperature extremes. Five, deep, vertical grooves in each panel and fine-line diagonal texturing help you retain a solid grip on the pistol but won't snag like traditional checkering. Still allows a quick shift of grip for reloads, and also easier on clothes and your skin during carry. The "TS" grips feature a thumb scoop on the left hand panel that allows better access to the magazine catch. For shooters with short digits, this thumb scoop will make your magazine changes more certain. The HD-300-TS Carry Groove grips feature a beveled bottom. The HD-300-TS come equipped with the Thumb Scoop to give your thumb easier access to the magazine catch so you don't have to shift the gun in your grip as much during mag changes. The HD-303-TS Carry Groove grips feature a square bottom with no pin notch to match up to add-on mag wells. The HD-303-TS come equipped with the Thumb Scoop to give your thumb easier access to the magazine catch so you don't have to shift the gun in your grip as much during mag changes. HD-300-S-TS Slim Carry Groove Grips are a nominal .180" thick with the new Ambi-Vertable feature. The Ambi-Vertable pocket allows you to use the grips as they come out of the bag on your pistols with a strong-side only safety. If you have an ambi thumb safety, you can easily trim away the back wall with a sharp box cutter, opening the pocket up for your ambi safety. Features Beveled Bottom and exposed pin notch.

Safety Instruction Guide for 1911 Carry Groove Grips

Introduction

Thank you for choosing the 1911 Carry Groove Grips by Harrison Design & Consulting. This guide provides essential safety information and instructions for the proper use and maintenance of your grips. Please read this guide carefully to ensure safe and effective use.

General Safety Guidelines

- Always ensure your firearm is unloaded before installing or handling the grips.
- Inspect the grips for any damage or defects before use. Do not use if damaged.
- Keep the grips out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding firearm accessories.
- Use the grips only as intended, and do not modify them in any way that may compromise safety.
- Regularly check for wear and tear to ensure continued safety and performance.

Specific Safety Precautions for Use

- Ensure a proper fit on your firearm model (Government Model and Commander).
- Be cautious when handling firearms, especially during magazine changes.
- Use the thumb scoop feature to assist in accessing the magazine catch without shifting your grip excessively.
- If using the AmbiVerTable feature, ensure proper trimming is done to avoid sharp edges that could cause injury.
- Avoid exposing the grips to extreme temperatures or harsh chemicals that may degrade the material.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the existing grips from your firearm using the appropriate tools.
- Align the new Carry Groove Grips with the grip frame, ensuring proper fit.
- Secure the grips in place using the provided screws, ensuring they are tightened adequately but not overtightened to avoid damage.

2. Usage:

- Hold the firearm firmly with both hands, utilizing the grooves for a secure grip.
- When performing magazine changes, use the thumb scoop to facilitate access to the magazine catch.
- Practice safe handling and shooting techniques at all times.

Disposal Instructions

- Dispose of any damaged or worn grips in accordance with local regulations.
- Avoid throwing grips in regular household waste; consider recycling options where available.
- For nonrecyclable grips, place them in a secure waste container to prevent accidental injury.
