Safety Instruction Guide for GEN II VIPER SLING

Introduction

Thank you for choosing the GEN II VIPER SLING by SPECTER GEAR. This singlepoint nylon web sling is designed for comfort and ease of use, allowing for quick transitions and secure weapon handling. To ensure your safety and the optimal use of this product, please read and follow the safety instructions and guidelines outlined in this document.

General Safety Guidelines

- Ensure the sling is used only for its intended purpose, which is to secure and carry firearms safely.
- Always inspect the sling for any signs of wear or damage before each use.
- Do not exceed the weight limit of the sling as specified by the manufacturer.
- Keep the sling away from children and unauthorized users.
- Be aware of your surroundings and ensure that the weapon is pointed in a safe direction at all times.
- In case of any malfunction or safety concern, discontinue use immediately and consult a qualified professional.

Specific Safety Precautions for Use

- Use the sling only with compatible loopstyle sling adapters.
- Ensure that the elastic shock cords are properly secured and not overstretched.
- When transitioning the sling from one shoulder to another, ensure that the weapon is pointed in a safe direction.
- Always use the builtin release buckle when disconnecting the weapon to avoid accidental discharges.
- The emergency release buckle should only be used in situations where rapid egress is necessary.
- Avoid using the sling in extreme weather conditions that may affect its material integrity.

Instructions for Installation and Usage

1. Installation:

- Locate the loopstyle sling adapter on your weapon.
- Attach the heavyduty steel mash hook clip securely to the adapter.
- Ensure the connection is firm and does not move when pulled.

2. Adjusting the Sling:

- Adjust the length of the sling to fit comfortably across your body.
- Ensure that the 1½" wide nylon webbing is not twisted and lies flat against your body.

3. Using the Sling:

- To secure the weapon, slide it into the sling and position it close to your body.
- Use the elastic shock cords to keep the weapon snug against your body for quick access.
- When transitioning the sling to the opposite shoulder, ensure the weapon remains pointed in a safe direction.

4. Emergency Disengagement:

- In case of an emergency, pull the emergency release buckle located in the loop to quickly remove the sling from your body.
- Always practice this action in a safe environment to ensure readiness.

Disposal Instructions

- Dispose of the sling responsibly and in accordance with local regulations.
- If the sling is damaged beyond repair, consider recycling the materials if possible.
- Do not dispose of the sling in regular household waste if it can pose a safety hazard.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product recalls, please reach out to the designated EU contact point provided with your product documentation. Always ensure you have the latest information regarding safety and compliance.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of your GEN II VIPER SLING. Stay informed about safety updates and product recalls through the EU's Safety Gate platform. Your safety and satisfaction are our priority. Thank you for choosing SPECTER GEAR.
