

# S&W M&P FULLY MACHINED SEAR - APEX TACTICAL SPECIALTIES INC 1-DOT FULLY MACHINED SEAR FOR M&P 9/357/40

[Handgun Parts](#) > [Trigger Group Parts](#) > [Sear Parts](#) > [Sears](#)

## Dramatically Improves Trigger Pull

Apex Tactical's Fully Machined Sear for the Smith & Wesson M&P series has a different geometry from the factory part that dramatically reduces trigger pull weight to less than 5 lbs., while it also shortens overtravel and improves reset speed. The end result is much better trigger feel overall. Use the Fully Machined M&P Sear as a standalone upgrade or in conjunction with an Apex spring kit and Ultimate Striker Block (both sold separately). The Apex Fully Machined Sear is available in two models: 1-Dot fits all current-production M&P pistols in 9mm, .357 SIG and .40 S&W. Does not fit M&P45 or Shield models. 2-Dot fits current-production M&P pistols in .45 ACP, M&P M2.0 in 9mm and .40 S&W, and ALL M&P Shields (9mm/.40 S&W/.45 ACP). With both models, the benefits will be the same: Reduces pull weight to sub 5 lbs. (exact weight varies from gun to gun) Shorter overtravel Faster reset The Apex Tactical Fully Machined Sear offers a simple upgrade to your Smith & Wesson M&P series pistol that yields a big improvement in its overall performance.

# Safety Instruction Guide for S&W M&P Fully Machined Sear

## Introduction

Thank you for choosing the S&W M&P Fully Machined Sear from Apex Tactical Specialties Inc. This product is designed to enhance the performance of your Smith & Wesson M&P series pistol. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Follow all local laws and regulations regarding firearm use and modifications.
- Ensure that you are familiar with the operation of your firearm before installation.
- Keep the product out of reach of children and unauthorized users.
- Use the product only as intended; modifications to firearms can lead to unintended consequences.
- Regularly inspect your firearm and components for wear and damage.
- If you experience any issues or malfunctions, discontinue use immediately and consult a qualified gunsmith.

## Specific Safety Precautions for Use

- **Trigger Pull Weight:** The Fully Machined Sear reduces trigger pull weight to less than 5 lbs. Ensure that you are comfortable with this weight before use.
- **Overtravel and Reset Speed:** This product shortens overtravel and improves reset speed. Familiarize yourself with these changes to avoid accidental discharges.
- **Compatibility:** Confirm that the model of your M&P pistol is compatible with the 1Dot or 2Dot sear before installation. Refer to the product specifications for details.
- **Installation:** Installation should only be performed by individuals knowledgeable in firearm modifications. If unsure, seek professional assistance.
- **Usage with Other Components:** The Fully Machined Sear can be used with an Apex spring kit and Ultimate Striker Block. Ensure compatibility and proper installation when using these components together.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, including screwdrivers and any specific tools recommended by Apex Tactical.

### 2. Installation:

- Remove the slide and frame from your M&P pistol according to the manufacturer's instructions.
- Carefully remove the existing sear from the trigger assembly.
- Install the Fully Machined Sear in the same orientation as the original sear.
- Reassemble the trigger assembly and ensure all components are secure.

### 3. Testing:

- Before using the firearm, conduct a function test in a safe environment.

- Check for proper trigger operation, including pull weight, overtravel, and reset speed.
- If any issues are detected, consult a qualified gunsmith.

#### **4. Regular Maintenance:**

- Regularly clean and inspect the sear and surrounding components to ensure optimal performance.
- Replace any worn or damaged parts immediately.

## **Disposal Instructions**

- Dispose of the product and any associated packaging in accordance with local regulations.
- Do not dispose of any firearm components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the S&W M&P Fully Machined Sear, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure the safe and effective use of your S&W M&P Fully Machined Sear. Always prioritize safety and compliance with local laws when handling firearms.
