

# AR .308 CLAYMORE MUZZLE BRAKE 30 CALIBER - TROY INDUSTRIES CLAYMORE MUZZLE BRAKE 30 CALIBER 5/8-24 STEEL BLACK

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

Compact brake is designed to direct both blast and noise forward, away from the shooter, to effectively dampen recoil for better control. Brake gives an extremely low dust signature and features a recessed crown with a raised saw tooth rim that allows secondary use as a breaching device. Humorously inscribed with "Point Toward Enemy" and large arrow. Models available to fit rifles chambered in 7.62/.308/6.8.

# Safety Instruction Guide for the AR .308 Claymore Muzzle Brake

## Introduction

Thank you for choosing the AR .308 Claymore Muzzle Brake by Troy Industries. This product is designed to enhance your shooting experience by effectively managing recoil and directing blast and noise forward. It is essential to follow the safety instructions outlined in this guide to ensure safe and effective use of the muzzle brake.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or adjusting the muzzle brake.
- Only use the muzzle brake with rifles chambered in 7.62/.308/6.8 caliber.
- Ensure that the muzzle brake is securely attached before firing.
- Always wear appropriate eye and ear protection when shooting.
- Keep the muzzle pointed in a safe direction at all times.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not modify the muzzle brake in any way, as this may compromise safety and performance.
- Regularly inspect the muzzle brake for wear or damage.

## Specific Safety Precautions for Use

- **Blast Direction:** The muzzle brake is designed to direct blast and noise forward. Ensure that no one is standing in front of the muzzle when firing.
- **Recoil Management:** While the muzzle brake helps to dampen recoil, always maintain a firm grip on your firearm to ensure control.
- **Dust Signature:** The muzzle brake produces a low dust signature, but be cautious of debris that may be displaced during firing.
- **Breeching Device:** The recessed crown and raised saw tooth rim allow for secondary use as a breeching device. Use caution if utilizing this feature, as it may pose additional risks.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your firearm is unloaded.
- Remove any existing muzzle device from your rifle.
- Clean the threads of the barrel to ensure a secure fit.
- Thread the muzzle brake onto the barrel by hand until it is snug.
- Use a crush washer (included) to secure the muzzle brake in place. Tighten it according to the manufacturer's specifications.
- Check that the muzzle brake is securely attached before use.

### 2. Usage:

- Load your firearm only when you are ready to shoot.
- Always check the surrounding area for safety before firing.
- Fire the weapon while maintaining proper shooting stance and grip.
- After shooting, inspect the muzzle brake for any signs of damage or wear.

## **Disposal Instructions**

- Dispose of the muzzle brake in accordance with local regulations for metal products.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the AR .308 Claymore Muzzle Brake, please refer to the manufacturer's website or contact their customer support for assistance.

## **Conclusion**

By following the safety instructions provided in this guide, you can ensure a safe and enjoyable experience with your AR .308 Claymore Muzzle Brake. Always prioritize safety and be aware of your surroundings when handling firearms. Thank you for your attention to these important guidelines.
