

1911 RETRO HAMMER & IGNITION SET - HARRISON DESIGN & CONSULTING RETRO IGNITION SET

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Low-profile, "bite free" hammer spur prevents hammer pinch even when used with the standard 1911A1 grip safety. "Retro" design has the look of a bobbed 1911A1 hammer. Available alone or in a kit with top-quality machined sear and disconnecter. All components precision machined from tool steel, heat treated, and polished for optimum fit and durability. Primary and breakaway angles on the sear are prepped and ready to go, but can be gunsmith modified to change trigger pull if desired.

1911 RETRO HAMMER & IGNITION SET Safety Instruction Guide

Introduction

Thank you for choosing the 1911 RETRO HAMMER & IGNITION SET by Harrison Design & Consulting. This guide provides essential safety information and instructions to ensure the safe use and installation of your product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's guidelines.
- Always handle firearms and firearm components with care.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.
- If you have any questions or concerns regarding the safety of this product, please reach out to the designated contact point.

Specific Safety Precautions for Use

- Before installation, ensure that the firearm is unloaded and pointed in a safe direction.
- Wear appropriate safety gear, including eye protection, during installation.
- Be aware of your surroundings and ensure that no one is in close proximity while working on the firearm.
- Do not modify the product beyond the manufacturer's recommendations, as this may compromise safety.
- If you are not experienced in firearms maintenance, seek the assistance of a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure you have the necessary tools for installation, including screwdrivers and punches.
- Read through all instructions before beginning the installation process.

2. Installation Steps

- Remove the existing hammer and ignition components from your 1911A1 firearm.
- Carefully install the new hammer, ensuring it is aligned correctly with the sear and disconnector.
- Secure the components in place, following the manufacturer's specifications for torque and alignment.
- Test the trigger pull and function of the hammer before reassembling the firearm.

3. PostInstallation Checks

- Once installed, conduct a thorough safety check to ensure all components are functioning properly.
- Test the firearm in a controlled environment, ensuring it operates safely and as intended.

Disposal Instructions

- Dispose of any old or unused firearm components in accordance with local regulations.
- Do not discard components in regular trash. Instead, consult your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the 1911 RETRO HAMMER & IGNITION SET, please consult the designated EU contact point for assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
