

# O-RING CLEANING JAGS - TCS .410 BORE CLEANING JAG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

## Increases Patch Pressure On Bore For Improved Cleaning Action

Solid aluminum jags with rubber O-rings are ideal for cleaning the bore of your gun without worrying about damaging the rifling. O-rings press patch firmly into bore surface for efficient cleaning action on powder, lead, copper, and plastic fouling. For use with patches, steel wool, and bronze wool. Shotgun and Black Powder jags are color coded; Rifle/Handgun jags are numbered for easy identification. In order to use TCS Manufacturing jags, you must use round patches that are .015" thick.

# ORING CLEANING JAGS TCS .410 BORE CLEANING JAG Safety Instruction Guide

## Introduction

Thank you for purchasing the ORING CLEANING JAGS TCS .410 BORE CLEANING JAG. This product is designed to effectively clean the bore of your firearm while ensuring the safety of both the user and the equipment. Please read this safety instruction guide thoroughly to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure that all cleaning procedures are conducted in a safe environment, away from children and pets.
- Always handle firearms in accordance with established safety protocols.
- Use the cleaning jag only with compatible patches that are .015" thick.
- Inspect the cleaning jag before each use for any signs of wear or damage.
- Store the cleaning jag in a safe place, out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before cleaning.
- Do not use the cleaning jag if it appears damaged or if the rubber Orings are worn out.
- Avoid using excessive force when inserting or removing the cleaning jag to prevent damaging the bore or the jag itself.
- Use only the recommended cleaning materials, such as patches, steel wool, and bronze wool.
- Wear appropriate personal protective equipment, such as safety glasses, if necessary.
- Be cautious of any cleaning solvents or chemicals used in conjunction with the cleaning jag.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including the ORING CLEANING JAG, cleaning patches, and any solvents.

### 2. Attaching the Cleaning Jag

- Select the appropriate cleaning jag for your firearm caliber (.410 bore).
- Screw the cleaning jag onto the cleaning rod using the male threads (832 tpi).
- Ensure that the jag is securely attached before proceeding.

### 3. Inserting the Cleaning Patch

- Take a round patch that is .015" thick and press it onto the rubber Oring of the cleaning jag.
- Ensure that the patch is firmly seated against the Oring for effective cleaning.

### 4. Cleaning the Bore

- Insert the cleaning jag gently into the bore of the firearm.
- Use a smooth, steady motion to push the jag through the bore and then pull it back out.
- Repeat this process as necessary, changing patches when they become soiled.

### 5. PostCleaning

- After cleaning, remove the cleaning jag from the cleaning rod.
- Dispose of used patches and any cleaning materials according to local regulations.
- Store the cleaning jag and other cleaning supplies in a safe location.

## **Disposal Instructions**

- Dispose of any used cleaning patches, steel wool, and bronze wool in accordance with local waste disposal regulations.
- If the cleaning jag is damaged beyond repair, dispose of it responsibly by following local electronic waste guidelines.

## **Contact Information for Further Support**

For any inquiries regarding the safety or use of the ORING CLEANING JAGS TCS .410 BORE CLEANING JAG, please refer to the manufacturer's contact information found on the product packaging or the official website.

Thank you for choosing the ORING CLEANING JAGS TCS .410 BORE CLEANING JAG. By following these safety instructions, you can ensure a safe and effective cleaning experience.
