For Maximum Control In Modern Gunfighting Stances

Reduced angle, ergonomically enhanced grips are designed to improve rifle control for shooters preferring the modern, “squared off” stance. Constructed of durable, impact-resistant polymer, they feature a texturized surface for a sure-hold and a water-resistant, hinged door that opens to reveal a small compartment capable of storing batteries or other small items. Two included modular triggerguard inserts (smooth and extended) may be used to close the gap between the triggerguard and grip depending on your preference; inserts also work well on rifles with larger triggerguards. MOD-0 model is similar in size to the standard A1/A2-style grip.
