

AR-15/ 308 AR NiB-X® COATED DISCONNECTOR - WMD GUNS NIB-X® AR-15 DISCONNECTOR

[Rifle Parts](#) > [Triggers Parts](#) > [Disconnecter Parts](#) > [Disconnectors](#)

Ultra-Hard, Ultra-Slick Finish Gives Smooth, Reliable Performance

These precision-machined components are coated with WMD's ultra-tough NiB-X® nickel boron finish for superior durability, corrosion resistance, and exceptionally smooth metal-on-metal contact. The coating allows the parts to function under extreme conditions with little or no lubrication, and gives carbon fouling nothing to adhere to, so cleanup is much easier than with ordinary finishes. Allows longer intervals between cleaning without loss of weapon performance.

Attributes

- Name: [WMD GUNS NIB-X® AR-15 DISCONNECTOR](#)
- Manufacturer: [WMD GUNS](#)
- Product no.: 100009990

Safety Instruction Guide for AR15/308 AR NiBX® Coated Disconnecter

Introduction

Thank you for choosing the AR15/308 AR NiBX® Coated Disconnecter from WMD Guns. This product is designed for enhanced performance and durability. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle firearms and their components with care. Treat every firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times during installation and use.
- Keep the disconnecter and all firearm components out of reach of children and unauthorized users.
- Regularly inspect all firearm components for wear and damage before use.
- Follow all local laws and regulations regarding firearm ownership and usage.
- In the event of an accident or unsafe condition, report it to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the disconnecter is compatible with smallpin (.154") AR15 lower receivers.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Do not attempt to modify or alter the disconnecter or any firearm components.
- Use only recommended lubricants and cleaning products that are safe for use on nickel boron finishes.
- Avoid using the firearm in extreme environmental conditions without proper precautions.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and safe to work on.
- Gather necessary tools, including a punch tool and hammer.

2. Installation

- Remove the existing disconnecter from the lower receiver.
- Align the new NiBX® coated disconnecter with the disconnecter hole in the lower receiver.
- Gently tap the disconnecter into place using the punch tool and hammer, ensuring it is securely seated.

3. PostInstallation Checks

- Verify that the disconnecter is functioning properly by cycling the action of the firearm without ammunition.
- Check for any unusual movement or loose components before reassembling the firearm.

4. Usage

- Once installed, the disconnecter will enhance the trigger mechanism's performance.
- Regularly clean the disconnecter and surrounding components to maintain optimal performance.

Disposal Instructions

- Dispose of any old or damaged firearm components, including disconnectors, in accordance with local regulations.
- Do not dispose of firearm components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For additional support or inquiries about the AR15/308 AR NiBX® Coated Disconnector, please reach out to your retailer or manufacturer's customer service.

By following these guidelines, you can ensure the safe and effective use of your AR15/308 AR NiBX® Coated Disconnector. Thank you for your attention to safety and responsible firearm ownership.
