# PACESETTER RIFLE THREEDIE SET SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the PACESETTER RIFLE THREEDIE SET from LEE PRECISION. This product is designed for reloading 308 Winchester ammunition and includes essential components for safe and effective use. It is important to follow these safety instructions to ensure a safe reloading experience.

## General Safety Guidelines

- Always treat all firearms and ammunition as if they are loaded and ready to fire.
- Use this die set only for its intended purpose: reloading 308 Winchester cartridges.
- Ensure you are familiar with the reloading process and the specific equipment needed.
- Keep all reloading tools and components out of reach of children and unauthorized users.
- Wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Work in a wellventilated area to minimize exposure to powder fumes.
- Do not smoke or have open flames near your reloading area.
- Store all powders and primers in a cool, dry place, away from direct sunlight.
- Regularly check your equipment for wear and damage; replace any broken parts immediately.

## Specific Safety Precautions for Use

- Ensure that your reloading press is securely mounted and stable before use.
- Always doublecheck that you have the correct die and components for the 308 Winchester cartridge.
- Do not exceed the recommended load data provided with the die set or from reputable reloading manuals.
- Avoid distractions while reloading; stay focused on the task at hand.
- Use the provided Universal Shell Holder specifically designed for the 308 Winchester cartridge to ensure proper fit and function.
- Follow the instructions for using the Full Length Sizing Die, Bullet Seating Die, and Factory Crimp Die carefully.
- Do not attempt to modify or alter the die set or any of its components.

## Instructions for Installation and Usage

### 1. Setup your Reloading Press:

- Securely mount your reloading press to a sturdy workbench or table.
- Ensure the work area is clean and organized before beginning.

### 2. Install the Dies:

- Start with the Full Length Sizing Die:
  - Thread the die into the press and tighten securely.
  - Adjust the die according to the manufacturer's instructions for proper sizing.
- Next, install the Bullet Seating Die:
  - Follow the same threading and tightening process.
  - Set the seating depth as per your load specifications.
- Finally, install the Factory Crimp Die:
  - Thread and secure it as done with the previous dies.

### 3. Use the Universal Shell Holder:

- Insert the shell holder into the press.
- Ensure it fits snugly and is compatible with the 308 Winchester cartridge.

#### **4. Reloading Process:**

- Begin with the Full Length Sizing Die to resize your brass cases.
- Follow with the Bullet Seating Die to seat your bullets to the desired depth.
- Use the Factory Crimp Die to crimp the bullets securely into place.

#### **5. Cleaning Up:**

- After reloading, clean your workspace and safely store all components.
- Dispose of any unused or expired materials according to local regulations.

## **Disposal Instructions**

- Dispose of any unused reloading materials, such as powders and primers, in accordance with local hazardous waste disposal regulations.
- Do not throw away ammunition components in regular trash.
- Contact your local waste management facility for guidance on safe disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the PACESETTER RIFLE THREEDIE SET, please refer to the manufacturer's website or contact their support team for assistance.

Remember, safety is paramount when reloading ammunition. Always prioritize caution and follow these instructions to ensure a safe and enjoyable reloading experience.
