Safety Instruction Guide for PISTOL CARBIDE FACTORY CRIMP DIES

Introduction

Thank you for choosing the PISTOL CARBIDE FACTORY CRIMP DIES by LEE PRECISION. This product is designed to enhance your reloading experience by providing a reliable crimp on your .40 S&W and 10MM cartridges. To ensure your safety and the optimal performance of this product, please read and follow the guidelines outlined in this manual.

General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading ammunition.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Store all reloading components, including dies, in a secure location away from children and unauthorized users.
- Regularly inspect your reloading equipment for wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading and usage.

Specific Safety Precautions for Use

- Use only the specified cartridge types (.40 S&W and 10MM) with this die to avoid malfunction or accidents.
- Do not exceed the recommended crimping specifications; an excessive crimp may cause ammunition failure or damage to your firearm.
- Ensure that the adjusting screw is securely set before crimping to prevent accidental adjustments during operation.
- Avoid using the die with cases that have not been properly trimmed or chamfered, as this may lead to inconsistent performance.
- Be cautious when handling and operating the die, as sharp edges may be present.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the PISTOL CARBIDE FACTORY CRIMP DIE into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

2. Adjusting the Crimp:

- Use the adjusting screw to set the desired amount of crimp. A firm crimp is essential for dependable and accurate ammunition.
- Test the crimp on a few dummy rounds to verify that the adjustment meets your requirements.

3. Crimping Process:

- Place a cartridge case into the shell holder of the reloading press.
- Operate the press to apply the crimp to the cartridge. Ensure that the case is fully sized and crimped.
- Inspect the crimped cartridges to ensure they meet your specifications before proceeding with

further loading.

4. PostUse Care:

- Clean the die after each use to prevent buildup of residue and maintain performance.
- Store the die in a dry place to prevent rust or corrosion.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact your local waste management facility for information on safe disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the PISTOL CARBIDE FACTORY CRIMP DIES, please reach out to the designated EU contact point provided with your product purchase.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your PISTOL CARBIDE FACTORY CRIMP DIES. Always prioritize safety and adhere to the guidelines to prevent accidents and ensure the longevity of your equipment. Thank you for choosing LEE PRECISION for your reloading needs.
