

# PISTOL CARBIDE FACTORY CRIMP DIES - LEE PRECISION LEE CARBIDE FACTORY CRIMP DIE, .45 ACP

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Sizes the cartridge while being crimped so every round will positively chamber freely with factory like dependability The adjusting screw quickly and easily sets the desired amount of crimp Trim Length is not critical so this extra operation takes less time than it would if cases were trimmed and chamfered A firm crimp is essential for dependable and accurate ammunition, as it eliminates the problems of poor ignition of slow burning magnum powders Made of steel and features an internal carbide ring Carbide dies do not require the use of case lube

# Safety Instruction Guide for PISTOL CARBIDE FACTORY CRIMP DIES LEE PRECISION LEE CARBIDE FACTORY CRIMP DIE, .45 ACP

## Introduction

Thank you for choosing the PISTOL CARBIDE FACTORY CRIMP DIES by Lee Precision. This guide provides important safety instructions and guidelines to ensure the safe use of this product. Please read and follow all instructions carefully to maintain safety and effectiveness.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free of obstructions before use.
- Keep the product out of reach of children and unauthorized users.
- Wear appropriate safety gear, including eye protection and gloves, when using this product.
- Regularly inspect the product for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:** Improper use of the crimp die may lead to unsafe ammunition, which can cause misfires or malfunctions. The carbide ring may become damaged if the die is used with improperly sized cases.
- **Instructions for Avoiding Hazards:** Always ensure that cases are properly sized before crimping. Do not attempt to crimp cases that have not been trimmed or are of inconsistent lengths. Avoid using excessive force when adjusting the crimp to prevent damage to the die or cases. Do not use the die for purposes other than intended.

## Instructions for Installation and Usage

- **Installation:**

1. Ensure that your reloading press is securely mounted.
2. Insert the crimp die into the press according to the manufacturer's specifications.
3. Adjust the die to the desired depth for crimping.
4. Lock the die in place to prevent movement during operation.

- **Usage:**

1. Prepare your .45 ACP cases by ensuring they are clean and free from debris.
2. Place a sized and primed cartridge into the press.
3. Slowly raise the ram to engage the crimp die with the cartridge.
4. Adjust the crimping depth as needed, ensuring a firm crimp without damaging the case.
5. After crimping, inspect the cartridge to ensure it chambers correctly.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the PISTOL CARBIDE FACTORY CRIMP DIES, please refer to the manufacturer's contact information provided with the product packaging.

By following the instructions and guidelines outlined in this safety instruction guide, you can ensure safe and effective use of your PISTOL CARBIDE FACTORY CRIMP DIES. Always prioritize safety and consult the manufacturer for additional information or support.
