Safety Instruction Guide for 4 DIE DELUXE PISTOL DIE SET LEE PRECISION 9MM LUGER CARBIDE 4DIE SET

Introduction

Thank you for choosing the 4 DIE DELUXE PISTOL DIE SET by LEE PRECISION. This product is designed to assist you in the reloading process for 9mm Luger cartridges. Your safety is our priority, and this guide provides essential safety instructions and guidelines to ensure the proper and safe use of this product.

General Safety Guidelines

- Always read and understand the instructions before using the die set.
- Store the die set in a cool, dry place away from moisture and extreme temperatures.
- Keep the die set out of reach of children and unauthorized individuals.
- Use the die set only for its intended purpose.
- Regularly inspect the die set for any signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading materials.
- Ensure that your workspace is clean and organized to avoid accidents.
- Do not exceed the recommended load data provided in the instructions.
- Always verify that the reloading components you are using are compatible with the die set.
- Be cautious with the handling of powders and primers, as they can be hazardous.
- Do not use the carbide factory crimp die with 50 Beowolf cartridges, as it is not designed for this purpose.

Instructions for Installation and Usage

1. Setup:

- Gather all components of the die set: Carbide Full Length Sizing Die, Bullet Seating Die, Powder Thru Expanding Die, Carbide Factory Crimp Die, Shell Holder, and Powder Dipper.
- Ensure your reloading press is properly mounted and secure.

2. Installation:

- Install the Carbide Full Length Sizing Die into the reloading press according to the manufacturer's instructions.
- Adjust the die to ensure it sizes the cartridge correctly without excessive force.
- Install the Bullet Seating Die and adjust it to achieve the desired bullet seating depth.
- Install the Powder Thru Expanding Die and ensure it is set to expand the case mouth adequately.
- Finally, install the Carbide Factory Crimp Die, ensuring it is set to crimp without damaging the bullet.

3. Reloading Process:

- Begin the reloading process by sizing the brass cases with the Carbide Full Length Sizing Die.
- After sizing, expand the case mouth using the Powder Thru Expanding Die.
- Fill the cases with the appropriate powder charge using the Powder Dipper.

- Seat the bullets using the Bullet Seating Die.
- Crimp the completed rounds using the Carbide Factory Crimp Die.

4. Final Checks:

- Inspect each completed round for consistency and proper seating.
- Store completed rounds in a safe and organized manner.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Ensure that all hazardous materials, such as powders and primers, are disposed of safely and responsibly.
- Check with local waste management authorities for guidance on the disposal of reloading components.

Contact Information for Further Support

For further assistance or inquiries regarding the 4 DIE DELUXE PISTOL DIE SET, please refer to the product packaging or visit the manufacturer's website for more information.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
