# 4 DIE DELUXE PISTOL DIE SET LEE PRECISION 40 S&W CARBIDE 4DIE SET Safety Instructions

## Introduction

Thank you for choosing the 4 Die Deluxe Pistol Die Set by Lee Precision. This guide provides essential safety instructions to ensure the safe use of this product. Please read it carefully before using the die set, and keep it for future reference.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate safety gear, including safety glasses, when handling reloading components.
- Keep all reloading materials out of reach of children and pets.
- Store components in a cool, dry place to prevent degradation.
- Regularly inspect your equipment for wear or damage before use.
- Be aware of your surroundings and ensure that you are in a safe environment while reloading.

## Specific Safety Precautions for Use

- **Carbide Factory Crimp Die:** This die separates the bullet seating from the crimping operation, making setup easier. Ensure that you understand its operation before use.
- **50 Beowolf Compatibility:** Note that the 50 Beowolf contains a steel sizing die and taper crimp die, not a factory crimp die. Ensure you are using the correct components for your specific cartridge.
- **Avoid Overloading:** Follow load data and instructions carefully to prevent overloading, which can cause dangerous malfunctions.
- **Bullet Seating:** Ensure that the bullet is seated properly before crimping to avoid misfires or other issues.
- **Powder Handling:** Use the powder dipper provided with the set to measure powder accurately. Do not use other measuring tools to avoid errors.

## Instructions for Installation and Usage

### 1. Setup:

- Gather all components of the die set, including the Carbide Full Length Sizing Die, Bullet Seating Die, Powder Thru Expanding Die, and Carbide Factory Crimp Die.
- Ensure that your reloading press is clean and in good working condition.

### 2. Installation:

- Install the Carbide Full Length Sizing Die into your reloading press according to the manufacturer's instructions.
- Follow with the installation of the Powder Thru Expanding Die, Bullet Seating Die, and Carbide Factory Crimp Die in the order specified in the instructions.
- Attach the shell holder compatible with your cartridge.

### 3. Reloading Process:

- Start by resizing the brass cases using the Carbide Full Length Sizing Die.
- Expand the case mouth using the Powder Thru Expanding Die to prepare for bullet seating.
- Seat the bullet using the Bullet Seating Die, ensuring it is properly aligned.
- Finally, crimp the bullet in place using the Carbide Factory Crimp Die.

#### 4. Quality Control:

- Inspect each cartridge after reloading to ensure proper seating and crimping.
- Test a few rounds at the range to ensure they function correctly in your firearm.

## Disposal Instructions

- Dispose of any unused or excess reloading materials according to local regulations.
- Do not dispose of hazardous materials in regular trash. Contact local waste management authorities for proper disposal methods.
- Ensure that all packaging is recycled where possible.

## Contact Information for Further Support

For any inquiries regarding safety concerns or product support, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the 4 Die Deluxe Pistol Die Set by Lee Precision. Always prioritize safety and consult the manufacturer's instructions for any specific concerns. Happy reloading!
