Safety Instruction Guide for 4 DIE DELUXE PISTOL DIE SET LEE PRECISION 44 SPECIAL CARBIDE 4DIE SET

Introduction

Thank you for choosing the 4 DIE DELUXE PISTOL DIE SET by LEE PRECISION. This product is designed to help you safely and effectively reload ammunition for the .44 Special cartridge. Please read this safety instruction guide carefully to ensure proper use and to minimize any risks associated with reloading.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety procedures.
- Ensure that your workspace is clean, organized, and free of distractions.
- Keep all components of the reloading process, including powders and primers, out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Be aware of potential hazards associated with reloading, including exposure to lead and other chemicals.
- Regularly check for product recalls and updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are using the correct die set for the .44 Special cartridge.
- Do not attempt to reload ammunition without proper knowledge or training.
- Always verify the powder type and charge weight according to reliable load data.
- Avoid overfilling powder measures to prevent spills and potential hazards.
- Never use damaged or worn components; inspect dies and shell holders before use.
- Follow the instructions for the Carbide Factory Crimp Die carefully to avoid improper crimping.

Instructions for Installation and Usage

1. Setup the Dies:

- Start by securely fastening the dies into your reloading press.
- Install the Carbide Full Length Sizing Die first to resize the brass cases.
- Follow with the Powder Thru Expanding Die to prepare the cases for bullet seating.
- Next, install the Bullet Seating Die to properly seat the bullets.
- Finally, attach the Carbide Factory Crimp Die to ensure a proper crimp on the completed rounds.

2. Reloading Process:

- Begin by cleaning and inspecting your brass cases.
- Resize the cases using the Carbide Full Length Sizing Die.
- Expand the case mouths with the Powder Thru Expanding Die.
- Measure and pour the correct amount of powder into each case.
- Seat the bullets using the Bullet Seating Die, ensuring they are at the correct depth.
- Use the Carbide Factory Crimp Die to apply a crimp to the finished rounds.

3. Maintenance:

- Clean the dies after use to prevent corrosion and buildup.
- Store the dies in a dry place away from moisture.

- Regularly check the equipment for any signs of wear or damage.

Disposal Instructions

- Dispose of any used primers, powder, and brass cases in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash; check for local hazardous waste disposal options.
- Ensure that all reloading components are stored safely until disposal.

Contact Information for Further Support

For questions regarding safety, usage, or maintenance of your 4 DIE DELUXE PISTOL DIE SET, please refer to the manufacturer's contact information provided in the product packaging or manual.

By following these guidelines, you can ensure a safer reloading experience. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation (GPSR).
