

# CLASSIC BULLET SIZING KIT - LEE PRECISION 0.430" DIAMETER

## CLASSIC BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

### Attributes

- Name: [LEE PRECISION 0.430" DIAMETER CLASSIC BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100010173
- Mfr. No.: 90062
- Diameter (in): 0.430
- Delivery weight: 0.417kg
- Shipping height: 83mm
- Shipping width: 83mm
- Shipping length: 140mm
- UPC: 734307900625

# CLASSIC BULLET SIZING KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT by Lee Precision. This guide provides important safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before using the kit.

## General Safety Guidelines

- Always ensure that the workspace is clean, dry, and wellventilated.
- Keep the product out of reach of children and pets.
- Use the product only for its intended purpose as described in this guide.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, when using the kit.
- Regularly inspect the kit for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the reloading press being used is compatible with the CLASSIC BULLET SIZING KIT.
- Do not exceed the recommended sizing diameter of .001" larger than groove diameter for cast bullets.
- Always lubricate the bullets with liquid alox before use to ensure proper sizing and crimping of gas checks.
- Only use the pushthrough punch as a substitute for a shell holder in the ram.
- Follow the instructions for crimping gas checks carefully to avoid injury or damage to the product.
- Do not attempt to modify or alter the product in any way.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials, including the CLASSIC BULLET SIZING KIT, liquid alox, and a singlestage reloading press.
- Ensure that the workspace is clean and organized.

### 2. Lubrication:

- Apply liquid alox to the cast bullets to ensure smooth sizing.
- Make sure the bullets are evenly coated but not excessively lubricated.

### 3. Setting Up the Kit:

- Attach the sizing die to the reloading press using standard 78x14" threads.
- Ensure that the die is securely fastened and properly aligned.

### 4. Sizing Bullets:

- Place a gas check on the base of the bullet.
- Position the bullet on the pushthrough punch.
- Slowly push the bullet through the sizing die, ensuring that it is nosefirst.
- The bullet will be sized, and the gas check will be crimped in place.

### 5. Capturing Sized Bullets:

- Sized bullets will be captured in the special container provided with the kit.
- Regularly check the container to prevent overflow.

#### **6. PostUse Care:**

- Clean the sizing die and any other components after use to maintain functionality.
- Store the kit in a dry and safe location.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Ensure that all materials are disposed of in an environmentally friendly manner.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the CLASSIC BULLET SIZING KIT, please refer to the manufacturer's website or contact the customer support team for assistance.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure the safe and effective use of the CLASSIC BULLET SIZING KIT. Always prioritize safety and proper handling to enjoy the benefits of your reloading activities. Thank you for your attention to these important safety measures.
