

M&P ALUMINUM AEK TRIGGER - APEX TACTICAL SPECIALTIES INC

ALUMINUM AEK TRIGGER

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

The AEK Trigger is an enhanced trigger for the Smith & Wesson M&P Pistols, reducing trigger pre-travel and over travel by approximately 20%. Unintended operation of the trigger is prevented by the Center Mounted Pivoting Safety bar. This bar creates a block that will not disengage unless the shooter places their finger directly on the trigger face. The flat, smooth face of the trigger encourages the shooter to place their finger on the center line of the trigger, ensuring trigger manipulation directly in line with the bore axis. Included Trigger Return Spring Installation Slave Pin aids in the reinstallation of the trigger return spring. This trigger differs from the Apex Tactical Forward Set Trigger Kit in that it will not reduce uptake or pretravel as much as the Forward Set Trigger Kit does. You can expect limited pre-travel, limited over-travel, and improved safety features out of the AEK Trigger. The AEK Trigger works with all Smith & Wesson M&P Pistols in all calibers and configurations EXCEPT Shield and M&P 2.0. It works in conjunction with the Duty Carry AEK and Competition AEK from Apex Tactical. Also, it works as a stand-alone trigger with the factory sear and other components. Does not function with the Forward Set Sear and Trigger Kit.

Attributes

- Name: [APEX TACTICAL SPECIALTIES INC ALUMINUM AEK TRIGGER](#)
- Manufacturer: [APEX TACTICAL SPECIALTIES INC](#)
- Product no.: 100010583

M&P Aluminum AEK Trigger Safety Instruction Guide

Introduction

Thank you for your purchase of the M&P Aluminum AEK Trigger from Apex Tactical Specialties Inc. This guide provides essential safety information and instructions for the safe use and installation of your new trigger. Please read and follow these guidelines carefully to ensure safe and proper operation.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Ensure that your firearm is pointed in a safe direction at all times.
- Be aware of your target and what lies beyond it.
- Store your firearm and ammunition securely, away from children and unauthorized users.
- Regularly inspect your firearm for any signs of wear or damage.
- Familiarize yourself with the specific safety features of the M&P Aluminum AEK Trigger.
- Follow all local laws and regulations regarding firearm use and modifications.

Specific Safety Precautions for Use

- The AEK Trigger is designed for use with Smith & Wesson M&P Pistols only, excluding the Shield and M&P 2.0 models.
- Ensure that the trigger is properly installed before use.
- Do not use the trigger with the Forward Set Sear and Trigger Kit.
- Always check that the Center Mounted Pivoting Safety bar is functioning correctly before use.
- Avoid any modifications to the trigger that are not specified in this guide.
- If you experience any malfunctions or issues, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation Instructions

1. **Preparation:** Ensure that your firearm is unloaded and pointed in a safe direction.
2. **Remove the Existing Trigger:**
 - Disassemble your M&P Pistol according to the manufacturer's instructions.
 - Carefully remove the existing trigger and associated components.
3. **Install the AEK Trigger:**
 - Insert the AEK Trigger into the trigger housing.
 - Use the Trigger Return Spring Installation Slave Pin to assist in reinstalling the trigger return spring.
 - Ensure that the trigger is seated properly and that the Center Mounted Pivoting Safety bar is in place.
4. **Reassemble the Firearm:** Follow the manufacturer's instructions to reassemble your M&P Pistol.
5. **Function Check:**
 - Perform a function check to ensure that the trigger operates correctly.
 - Verify that the safety features are functioning as intended.

Usage Instructions

- When using the AEK Trigger, maintain a proper grip on your firearm.
- Place your finger on the center line of the trigger face to ensure accurate trigger manipulation.
- Be aware of the limited pretravel and overtravel characteristics of the AEK Trigger.

- If you notice any unusual behavior or feel while using the trigger, stop using the firearm and have it inspected.

Disposal Instructions

- Dispose of the AEK Trigger in accordance with local regulations.
- Do not dispose of the trigger in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the M&P Aluminum AEK Trigger, please refer to the manufacturer's website or contact their support team for assistance. Always ensure you are using authorized and verified sources for information regarding your product.

By following these guidelines, you can ensure a safe and enjoyable experience with your M&P Aluminum AEK Trigger. Remember that safety is paramount when handling firearms, and always seek professional assistance if you are unsure about any aspect of your firearm or its components.
