**BROWNELLS ULTRATECH PRECISION SCREWDRIVER** The Brownells Ultratech Precision Screwdriver is meticulously designed for gunsmiths and firearm enthusiasts requiring exacting precision in firearm maintenance and assembly. Featuring a 5/64-inch-wide blade with a thickness of 0.014 inches, this screwdriver is ideal for engaging small screws commonly found in firearms. The rotating cap is ergonomically designed to fit comfortably in the palm, with a recessed area accommodating the fingertip, allowing for precise control during delicate tasks. A color-coded ring facilitates quick identification among tools, and the body is proportioned to prevent the application of excessive torque, safeguarding fasteners from damage. The eight-sided, non-slip cushion grip ensures a secure hold, enhancing user comfort and control. Constructed from heat-treated 8650 alloy steel, known for its nickel-chromium-molybdenum composition, the blade offers exceptional durability and strength. A chrome-plated finish provides resistance to corrosion, ensuring longevity. Key Features: Precision Blade: 5/64-inch width and 0.014-inch thickness, suitable for small firearm screws.
