DPMS/KAC 308 Barrel Nut Wrench Safety Instruction Guide

Introduction

Thank you for choosing the DPMS/KAC 308 Barrel Nut Wrench. This tool is designed to assist you in safely and effectively attaching the barrel to the receiver of your DPMS and KAC rifles. Please read this safety instruction guide carefully to ensure proper usage and to minimize any risks associated with the product.

General Safety Guidelines

- Always use the wrench in accordance with the manufacturer's instructions.
- Inspect the wrench before each use for any signs of damage or wear.
- Store the wrench in a dry, secure location away from children and unauthorized users.
- Use the wrench only for its intended purpose, which is to tighten barrel nuts on DPMS and KAC rifles.
- If you experience any difficulties or uncertainties while using the wrench, seek assistance from a qualified professional.

Specific Safety Precautions for Use

- Ensure that you are using the correct torque setting as specified in your rifle's manual.
- Do not exceed the recommended torque specifications, as this may damage the barrel or receiver.
- Use appropriate personal protective equipment (PPE), such as safety goggles, to protect your eyes from debris.
- Keep hands and other body parts clear of the wrench's moving components during use.
- Avoid using the wrench in wet or damp conditions to prevent slipping and loss of control.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the DPMS/KAC 308 Barrel Nut Wrench and a compatible torque wrench (3/8 or 1/2 drive).
- Ensure that the workspace is clean and welllit.

2. Attaching the Barrel Nut

- Align the barrel nut with the receiver and handtighten it to ensure proper seating.
- Insert the DPMS/KAC Barrel Nut Wrench onto the barrel nut, ensuring that the lugs fit securely into the notches.

3. Applying Torque

- Connect your torque wrench to the DPMS/KAC Barrel Nut Wrench.
- Set the torque wrench to the manufacturer's recommended torque specification.
- Gradually apply pressure to the torque wrench until the desired torque is reached. Do not exceed the specified limit.

4. Final Checks

- After securing the barrel nut, doublecheck the torque setting to ensure it is within the manufacturer's specifications.
- Inspect the wrench and barrel nut for any signs of damage or misalignment.

Disposal Instructions

- Dispose of the DPMS/KAC 308 Barrel Nut Wrench in accordance with local regulations.
- If the wrench is damaged or no longer usable, consider recycling it if possible. Check with local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the DPMS/KAC 308 Barrel Nut Wrench, please refer to the manufacturer's website or contact their customer support team. Ensure you have your product details available for a more efficient inquiry.

Please remember to follow these safety instructions to ensure a safe and effective experience with your DPMS/KAC 308 Barrel Nut Wrench. Thank you for your attention to safety!
