

# 1911 IGNITION SET WITH COMMANDER HAMMER - HARRISON DESIGN & CONSULTING ORIG COMM HAMMER ROUND HOLE

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Manufactured from top grade tool steel to provide precise fit and reliable, consistent function under the most demanding conditions. Each part is wire EDM'd and CNC machined for a precise +/- .0005" tolerance then heat treated to Rc 53 - 56, then honed and mirror polished to give Extreme Service in your pistol. The hammer is slightly narrowed to avoid unwanted contact with the slide or ejector and features the standard original round hole configuration. The spur has deep serrations to help you keep the hammer under control and all exterior corners are CNC machine beveled to minimize snagging and abrasion. The sear is shaped to minimize excess material, reducing weight. The sear nose features a polished primary angle and breakaway angle. Fully polished surfaces mean smooth operation in the points of contact between the disconnecter, sear and hammer. Available in the white or with an IonBond Black hammer.

## Attributes

- Name: [HARRISON DESIGN & CONSULTING ORIG COMM HAMMER ROUND HOLE](#)
- Manufacturer: [HARRISON DESIGN & CONSULTING](#)
- Product no.: 100011127

# 1911 Ignition Set Safety Instruction Guide

## Introduction

Thank you for choosing the 1911 Ignition Set with Commander Hammer from Harrison Design & Consulting. This product is designed to enhance the performance of your pistol while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle firearms with care and in accordance with standard safety practices.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for signs of wear or damage before use.
- If you notice any abnormalities or malfunctions, discontinue use immediately and seek professional assistance.

## Specific Safety Precautions for Use

- Only use the ignition set in compatible 1911 models as specified by the manufacturer.
- Wear appropriate safety gear, including eye protection, when handling or installing the ignition set.
- Ensure that the firearm is unloaded before installation or maintenance.
- Avoid contact with the hammer or sear during operation to prevent accidental discharge.
- Be aware of your surroundings and ensure a safe environment when handling firearms.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools for installation, including screwdrivers and wrenches.
- Ensure that the work area is clean and free from distractions.

### 2. Installation Steps

- Ensure the firearm is completely unloaded.
- Remove the existing hammer and sear from the firearm following the manufacturer's instructions.
- Install the new hammer from the ignition set, ensuring it is properly seated.
- Attach the sear, ensuring that it is correctly aligned with the hammer.
- Check that all components move freely and do not obstruct each other.

### 3. Testing

- After installation, perform a function check to ensure that the hammer and sear operate correctly.
- Test the firearm in a safe environment, following all safety protocols.
- If any issues arise during testing, consult a qualified gunsmith.

## Disposal Instructions

- Dispose of any packaging materials and unused parts in accordance with local regulations.
- Do not dispose of the ignition set in general waste. Instead, check for local recycling programs that accept metal components.
- Ensure that any discarded parts are not accessible to children or unauthorized individuals.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the 1911 Ignition Set, please refer to the manufacturer's website or contact their support team directly.

By following these safety guidelines and instructions, you can ensure the safe and effective use of the 1911 Ignition Set with Commander Hammer. Always prioritize safety and seek professional assistance if you are unsure about any aspect of installation or use.
