

GO HEADSPACE GAUGES - CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 100011283
- Mfr. No.: GO300BLACK
- Cartridge: 300 AAC Blackout
- Colour: Steel
- Height: 0.365"
- Length: 1.287"
- Material: Steel
- Model Number: 300 Blackout Go
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.365"
- Delivery weight: 0.018kg
- Shipping height: 19mm
- Shipping width: 19mm
- Shipping length: 64mm

Safety Instruction Guide for HEADSPACE GAUGES GO CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL

Introduction

Thank you for choosing the HEADSPACE GAUGES GO CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL. This product is essential for accurately measuring and testing the length of the chamber of your rifle, ensuring safety and precision during use. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm and the importance of headspace measurement before using this product.
- Always handle the gauge with care to avoid damage and ensure accurate measurements.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for wear or damage before use. Do not use a damaged gauge.
- Store the gauge in a safe and dry location when not in use to prevent rust and corrosion.

Specific Safety Precautions for Use

- Always check the headspace before firing a used gun to ensure safety.
- Use the gauge only for its intended purpose, which is to measure headspace in rifles chambered for 300 AAC Blackout.
- Follow the manufacturer's specifications and guidelines when using the gauge.
- Avoid using the gauge in conditions that may lead to inaccurate readings, such as extreme temperatures or moisture.
- Do not attempt to modify or alter the gauge in any way.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the bolt from the firearm for accurate measurement.

2. Using the Gauge:

- Insert the Go Gauge into the chamber of the rifle.
- Gently push the gauge into the chamber until it stops. It should fit snugly but not require excessive force.
- If the gauge does not fit, it indicates that the headspace is too short, and adjustments may be necessary.
- If the gauge fits, it confirms that the chamber is within acceptable limits for safe operation.

3. Checking Headspace:

- After using the Go Gauge, you may also use a NoGo Gauge for further verification.
- Insert the NoGo Gauge in the same manner. If the NoGo Gauge fits, the headspace is excessive and adjustments are required.

4. Post Use:

- Clean the gauge after use to remove any debris or residue.
- Store the gauge in its protective case to prevent damage.

Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations for metal waste.
- Do not discard the gauge in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the use of the HEADSPACE GAUGES GO CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

Following these safety instructions will help ensure the safe and effective use of the HEADSPACE GAUGES GO CLYMER 300 AAC BLACKOUT GO HEADSPACE GAUGE STEEL. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for your attention to these important safety measures.
