

LITTLE CROW GUNWORKS WORLDS FINEST TRIMMER - LITTLE CROW GUNWORKS. 6.5X284 WINCHESTER TRIMMER

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmers](#)

The "World's Finest Trimmer" lets you trim more cases in less time - and with less effort - using your electric drill as a power source. The adjustable cutter rotates and shortens the case until the shoulder contacts the close-fitting stop that is mounted in a bearing to prevent it from rotating and marring the case. Simply pick up a case and push it against the cutter until the excess brass is removed. Once you have the trimmer set up and get a rhythm going, you can easily maintain a pace of 8-10 cases per minute - a joy to use! Durable aluminum and stainless steel construction, with a high-speed steel cutter for years of reliable service. Units only trim cartridge cases to length. They do not chamfer or deburr the case mouth during trimming. These don't come with a dowel.

Introduction

Thank you for choosing the LITTLE CROW GUNWORKS WORLD'S FINEST TRIMMER. This guide provides essential safety instructions and usage information to ensure a safe and effective experience while using the trimmer. Please read this guide carefully before using the product.

General Safety Guidelines

- Always read and understand the user manual before operating the trimmer.
- Ensure that the trimmer is used only for its intended purpose of trimming cartridge cases.
- Keep the trimmer out of reach of children and vulnerable individuals.
- Regularly inspect the trimmer for any signs of damage or wear before use.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when operating the trimmer.
- Ensure the work area is clean and free from clutter to prevent accidents.
- Do not use the trimmer in wet or damp conditions to avoid electrical hazards.
- Disconnect the trimmer from the power source when not in use or when making adjustments.

Specific Safety Precautions for Use

- **Electrical Safety:**
 - Use only compatible electric drills as power sources.
 - Avoid overloading the drill; follow the manufacturer's guidelines for maximum capacity.
- **Cutting Safety:**
 - Keep hands and fingers away from the cutter while in operation.
 - Do not attempt to remove brass shavings or adjust the cutter while the trimmer is in use.
- **Ergonomics:**
 - Maintain a stable posture while using the trimmer to prevent strain or injury.
 - Use the trimmer at a comfortable height to avoid bending or reaching awkwardly.

Instructions for Installation and Usage

1. Setting Up the Trimmer:

- Secure the trimmer to a stable work surface.
- Attach the trimmer to the electric drill according to the manufacturer's instructions.
- Ensure the cutter is properly aligned and securely fastened.

2. Using the Trimmer:

- Select a cartridge case to trim.
- Hold the case firmly and align it with the cutter.
- Push the case against the cutter until the excess brass is removed.
- Maintain a steady rhythm to achieve a trimming pace of 810 cases per minute.

3. After Use:

- Disconnect the trimmer from the electric drill.
- Clean the trimmer and work area of any brass shavings.
- Store the trimmer in a safe and dry location away from children.

Disposal Instructions

- Dispose of any unused or damaged parts in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the trimmer in general waste; check for local electronic waste recycling programs.
