

# BODY DIES - REDDING 330 DAKOTA BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

## Attributes

- Name: [REDDING 330 DAKOTA BODY DIE](#)
- Manufacturer: [REDDING](#)

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the BODY DIES REDDING 330 DAKOTA BODY DIE. This product is designed to safely and effectively resize the case body of your ammunition, ensuring proper chambering after repeated firings. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

### **General Safety Guidelines**

- Always handle the BODY DIE with care to avoid injury.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Ensure that the die is used in a wellventilated area to avoid inhalation of any particles or fumes.
- Regularly inspect the die for any signs of damage or wear before use.
- Follow all recommended usage instructions to minimize risks associated with improper handling.

### **Specific Safety Precautions for Use**

- Use protective eyewear when operating the die to prevent eye injuries from debris.
- Wear gloves to protect your hands from sharp edges and potential metal shavings.
- Ensure that the die is securely mounted in the reloading press before use.
- Do not force the die if it becomes stuck; instead, consult the manufacturer for guidance.
- Always keep your workspace clean and organized to prevent accidents.

### **Instructions for Installation and Usage**

#### **1. Installation**

- Ensure that the reloading press is unplugged and in a safe position.
- Carefully remove the BODY DIE from its packaging.
- Securely mount the BODY DIE into the reloading press according to the manufacturer's instructions.
- Doublecheck that the die is firmly in place before proceeding.

#### **2. Usage**

- Begin by inspecting the cases to be resized for any visible damage.
- Insert the case into the BODY DIE and apply pressure using the reloading press.
- After resizing, remove the case and check for proper chambering.
- Follow up by running the resized case through a neck die to achieve proper neck tension.
- Store the BODY DIE in a safe, dry place when not in use.

### **Disposal Instructions**

- Dispose of any damaged or wornout BODY DIE in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local recycling programs for metal disposal options.
- Ensure that all packaging materials are recycled or disposed of responsibly.

## Contact Information for Further Support

- For any questions or concerns regarding the BODY DIES REDDING 330 DAKOTA BODY DIE, please reach out to the manufacturer directly. Ensure that you have your product details on hand for reference.

By adhering to these safety instructions, you help ensure a safer reloading experience. If you encounter any issues or have safety concerns, please report them to the appropriate authorities and stay informed about any recalls or safety alerts through the EU's Safety Gate platform. Thank you for your attention to safety and for choosing our product.
