

# FORWARD SET POLYMER TRIGGER KIT - APEX TACTICAL SPECIALTIES INC FORWARD SET POLYMER TRIGGER KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

The Apex Polymer Forward Set Trigger Kit reduces pre-travel and over travel.

The kit comes with two different trigger return springs, allowing the user to choose between 4lbs for competition use and 5.5 lbs for duty/carry use.

**FEATURES:** Includes forward set sear, trigger, striker block kit, and spring kit  
Striker block kit includes striker block, spring, and talon tactical tool Spring kit includes 4 and 5.5lb trigger return springs, trigger return spring install tool, sear spring, and ram spring Results in trigger pull weight near 4lbs for competition or 5.5 for duty/carry Smooth uptake and reset Total trigger travel of .120" Improved safety features make the FSS a reliably safe trigger system Works with all Smith & Wesson M&P pistols in all centerfire calibers and configurations except M&P Shield Requires the use of the sear housing block designed for the large size sear plunger and spring (current production as of June, 2011) **BENEFITS:** Forward set trigger reduces trigger pre-travel and over-travel The center mounted pivoting safety bar prevents unintended operation by creating a trigger block that will not disengage unless the shooter places their finger on the center of the trigger and encourages trigger manipulation directly in line with the bore axis Forward set sear shortens the stroke of the trigger pull by dropping the striker at a point farther forward than the factory sear Forward set striker block has an improved radius on the striker block face that produces a smoother trigger pull and eliminates most false reset issues This kit produces a smooth 4lb. trigger pull for competition or 5.5lbs for duty/carry use Does not fit M&P 2.0 Pistols

## Attributes

- Name: [APEX TACTICAL SPECIALTIES INC FORWARD SET POLYMER TRIGGER KIT](#)

# Safety Instruction Guide for the Apex Polymer Forward Set Trigger Kit

## Introduction

Thank you for choosing the Apex Polymer Forward Set Trigger Kit. This product is designed to enhance the performance of your Smith & Wesson M&P pistols while ensuring safe usage. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before using the trigger kit.
- Always treat every firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Store firearms and ammunition separately and in a secure location.
- Follow all local laws and regulations regarding firearms and accessories.
- Regularly inspect your firearm and its components for wear and damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- The Forward Set Trigger Kit is designed for use with Smith & Wesson M&P pistols only. It does not fit M&P 2.0 Pistols.
- Ensure that the firearm is unloaded before installation.
- Use the sear housing block specifically designed for the large size sear plunger and spring (current production as of June 2011).
- Be aware that the trigger pull weight will change to approximately 4lbs for competition use or 5.5lbs for duty/carry use.
- The centermounted pivoting safety bar must be checked to ensure it functions correctly before use.
- Do not attempt to modify the trigger kit or any of its components.
- Always use the trigger kit in a controlled environment and under safe conditions.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have all components of the kit: forward set sear, trigger, striker block kit, and spring kit.
- Gather necessary tools, including the trigger return spring install tool.

### 2. Installation:

- Make sure your firearm is pointed in a safe direction and is unloaded.
- Follow the manufacturer's instructions for disassembling your M&P pistol.
- Remove the factory trigger and sear.
- Install the forward set sear and trigger according to the provided instructions in the kit.
- Install the striker block and spring as per the guidelines.
- Use the trigger return spring install tool to properly install the 4lb or 5.5lb trigger return spring based on your preference.
- Reassemble your firearm following the manufacturer's guidelines.
- Conduct a function check to ensure the trigger kit operates correctly.

### 3. Usage:

- Always perform a safety check before firing your firearm.
- Be mindful of the trigger pull weight and adjust your handling accordingly.
- Maintain proper shooting stance and grip to ensure safe operation.

## Disposal Instructions

- Dispose of any packaging materials and unused components in accordance with local regulations.
- Do not dispose of the trigger kit or components in regular household waste. Check for local electronic waste disposal programs if applicable.
- Ensure that any hazardous materials are disposed of in a safe and environmentally friendly manner.

## Contact Information for Further Support

For any questions or concerns regarding the Apex Polymer Forward Set Trigger Kit, please refer to the manufacturer's website or contact their customer support for assistance. Ensure you have your product details ready for any inquiries.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your Apex Polymer Forward Set Trigger Kit. Thank you for your attention to safety.
