

AR-15 DRAGON MUZZLE BRAKE 22 CALIBER - LANTAC USA

DRAGON MUZZLE BRAKE 22 CALIBER 1/2-28 STEEL BLACK NITRIDE

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

Enhances Muzzle Control & Reduces Felt Recoil

The LANTAC Dragon Muzzle Brake has vertical ports in the primary discharge chamber to counteract muzzle rise, while the Short Energy Pulse system decreases recoil length, preventing stacking of repeating shot energy and enabling fast, accurate follow-up shots. Even with fully automatic fire, the Dragon delivers significant reduced recoil and muzzle climb, so more shots land on target. Machined from ultra-hard steel, the Dragon is virtually impervious to heat, corrosion and wear. Flats on the side allow you to install it with any standard wrench. Includes crush washer for secure fit and proper indexing.

Attributes

- Name: [LANTAC USA DRAGON MUZZLE BRAKE 22 CALIBER 1/2-28 STEEL BLACK NITRIDE](#)
- Manufacturer: [LANTAC USA](#)
- Product no.: 100013596
- Mfr. No.: DGN556B
- Caliber: 22 Caliber (.223-.224)
- Finish: Nitride
- Material: Steel
- Size: .870
- Threads: 1/2-28
- Weapon type: AR-15
- Delivery weight: 0.045kg
- Shipping height: 28mm

AR15 Dragon Muzzle Brake Safety Instructions

Introduction

Thank you for choosing the AR15 Dragon Muzzle Brake. This product is designed to enhance your shooting experience by reducing recoil and muzzle climb. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm and its accessories.
- Always treat every firearm as if it is loaded, even if you believe it is not.
- Use appropriate protective gear, including eye and hearing protection, when using firearms.
- Store the muzzle brake and all firearms securely and out of reach of children.
- Regularly inspect your muzzle brake for any signs of damage or wear.
- Follow all local laws and regulations regarding the use and ownership of firearms and accessories.

Specific Safety Precautions for Use

- Do not use the muzzle brake with ammunition that exceeds the specified caliber.
- Ensure that the muzzle brake is properly installed before use.
- Avoid using the muzzle brake in environments where it may be subjected to extreme heat or corrosive elements.
- Be aware of your surroundings and ensure that the area is safe for shooting.
- Use the muzzle brake only with compatible rifles chambered in .223/5.56mm NATO with 1/2"28 tpi muzzle threads.
- Do not modify or alter the muzzle brake in any way, as this may compromise its safety and effectiveness.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Clean the muzzle of the rifle to remove any debris or residue.
- Place the provided crush washer onto the muzzle threads.
- Align the muzzle brake with the threads and screw it onto the muzzle until it is handtight.
- Use a standard wrench to tighten the muzzle brake securely, ensuring it is aligned correctly.
- Check the installation by ensuring there is no movement in the muzzle brake.

2. Usage:

- When firing, maintain a firm grip on the firearm to manage recoil effectively.
- Monitor the performance of the muzzle brake during use, looking for any unusual behavior or excessive wear.
- After use, allow the muzzle brake to cool down before handling, as it may become hot during firing.

Disposal Instructions

- Dispose of the muzzle brake in accordance with local regulations.
- If the muzzle brake is damaged or worn beyond safe use, do not attempt to repair it. Instead, dispose of it safely.
- Recycle materials where possible, following your local recycling guidelines.
