

PSR (PRECISION SNIPER RIFLE) ATLAS BIPODS - ACCU-SHOT QUICK DETACH PICATINNY PSR TALL HEIGHT BIPOD BLACK

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

ATLAS BIPOD PSR (PRECISION SNIPER RIFLE) ATLAS BIPODS The PSR (Precision Sniper Rifle) Atlas Bipod came about as the Atlas was selected for the USSOCOM Sniper Rifle system. The PSR was in response to the testing feedback that we got from the Military. These changes include a non-rotational legs, fore and aft pivot limiting bosses and a 40% stronger Inner leg. It is comprised of 6061-T6 aluminum, except the strengthened inner legs which are made from 7075-T6 aluminum that are Mil-Spec Type III hard coat anodized and have heat treated, stainless steel components. FEATURES Preloaded Pan: 30 degrees Preloaded Cant: 30 degrees Fore and Aft pivot limiting Bosses 5 leg positions: 0, 45, 90, 135 & 180 degrees Non-Rotating Legs: outer leg does not rotate around inner leg Larger, stronger inner legs Designed, Engineered, Machined & Assembled in America.

Safety Instruction Guide for PSR ATLAS BIPODS ACCUSHOT QUICK DETACH PICATINNY

Introduction

Thank you for choosing the PSR ATLAS BIPODS ACCUSHOT QUICK DETACH PICATINNY. This guide provides essential safety instructions and information to ensure the safe use and maintenance of your bipod. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the bipod is used in accordance with the manufacturer's instructions.
- Regularly inspect the bipod for any signs of wear or damage before each use.
- Always use the bipod on stable and level ground to prevent tipping or instability.
- Keep the bipod out of reach of children and individuals who may not understand its use.
- In case of any accidents or unsafe occurrences, report them to the relevant authorities.

Specific Safety Precautions for Use

- **NonRotating Legs:** Ensure that the outer legs do not rotate around the inner legs during use, as this may affect stability.
- **Weight Limit:** Do not exceed the weight capacity of the bipod to avoid structural failure.
- **Proper Attachment:** Ensure that the bipod is securely attached to the Picatinny mount before use.
- **Environmental Conditions:** Avoid using the bipod in extreme weather conditions that may affect its performance, such as heavy rain or strong winds.
- **Regular Maintenance:** Clean the bipod regularly and check for any loose screws or components.

Instructions for Installation and Usage

1. Installation:

- Identify the Picatinny rail on your firearm.
- Align the bipod's attachment mechanism with the rail.
- Slide the bipod onto the rail until it is securely in place.
- Lock the bipod in position according to the manufacturer's instructions.

2. Adjusting the Bipod:

- To adjust the height, pull the leg locks and extend or retract the legs to the desired position (7 to 13 inches).
- Ensure that the leg positions are securely locked in place before use.

3. Using the Bipod:

- Set the bipod on a stable surface.
- Use the preloaded pan and cant features to adjust the angle for optimal shooting position.
- Ensure the bipod remains stable during use.

4. PostUse:

- After use, detach the bipod from the firearm by reversing the installation steps.
- Store the bipod in a dry and safe location to prevent damage.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations.
- Do not dispose of the bipod in regular household waste if it contains any hazardous materials.
- Consider recycling the aluminum components where possible.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure the safe and effective use of your PSR ATLAS BIPODS ACCUSHOT QUICK DETACH PICATINNY. Thank you for your attention to safety.
