Safety Instruction Guide for AR15/M16 Low Profile Gas Blocks

Introduction

Thank you for choosing the AR15/M16 Low Profile Gas Block by Bravo Company. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that all firearm components are compatible and that you are familiar with your firearm's operational manual.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the gas block for wear, damage, or corrosion.
- If you notice any irregularities, discontinue use immediately and consult a qualified gunsmith.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) when handling firearms, including eye and ear protection.
- Ensure the firearm is unloaded before installing or handling the gas block.
- Do not modify the gas block or any other firearm components unless you are a qualified professional.
- Use only the recommended tools for installation to prevent damage to the gas block or firearm.
- Do not exceed the manufacturer's specifications for gas block installation and usage.
- Be aware of the potential hazards associated with firearm operation, including accidental discharge and misfires.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a wrench for set screws and any other tools specified in your firearm's manual.

2. Installation Steps

- Remove the existing gas block if applicable, following the manufacturer's instructions.
- Clean the barrel surface where the gas block will be installed to ensure a proper fit.
- Position the BCM Low Profile Gas Block over the barrel, aligning it with the gas port.
- Secure the gas block in place using the provided set screws. Ensure they are tightened to the manufacturer's specifications.
- Check for proper alignment and ensure the gas block is securely mounted.

3. Usage

- Once installed, function test the gas block by cycling the action of the firearm without ammunition.
- If the gas block is functioning correctly, proceed to load the firearm and conduct a safe test fire in a controlled environment.

- Monitor the gas block during use for any signs of malfunction or wear.

Disposal Instructions

- Dispose of any damaged or worn gas blocks in accordance with local regulations.
- Ensure that the gas block is rendered unusable before disposal to prevent misuse.
- Recycle materials when possible, following local guidelines for recycling metal components.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or contact your local distributor. Always ensure that you have access to professional advice for any concerns regarding safety or product functionality.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on responsible usage and adherence to these guidelines.
