[Rifle Parts](#) > [Grip Parts](#) > [Pistol Grips](#)

Reduced angle, ergonomically enhanced grips are designed to improve rifle control for shooters preferring the modern, “squared off” stance. Constructed of durable, impact-resistant polymer, they feature a texturized surface for a sure-hold and a water-resistant, hinged door that opens to reveal a small compartment capable of storing batteries or other small items. Two included modular triggerguard inserts (smooth and extended) may be used to close the gap between the triggerguard and grip depending on your preference; inserts also work well on rifles with larger triggerguards. MOD-2 has the same wider profile as the MOD-3 but also gives the user the additional option of customizing the grip with three interchangeable backstraps for various hand sizes, weapons, and grip positions. It also includes two interchangeable inserts for either a smooth front strap or a “duckbill” to cover the trigger guard gap.
