## **Refined, Consistent, Reliable Triggers That Don't Cost a Fortune! Available ONLY at Brownells**

B-GC (Brownells / Geissele Competition) Don't Spend a Fortune! Available ONLY at Brownells Geissele and Brownells have teamed up to offer two unique triggers that give you the best performance at the best price! As one of the oldest and largest distributors of Geissele products, we had the unique opportunity to sit down with them to spec out two AR-15 triggers that wring out every bit of the performance Geissele is famous for. We also wanted to deliver them at a price point that won't make Geissele fans wait until a Black Friday sale to upgrade their current trigger! We found ways to reduce production costs on things that don't sacrifice the legendary Geissele trigger performance. So these triggers are not laser-engraved (which you can't see anyway when they're in the gun), and they're batch-tested rather than individually inspected. Rest assured, if for ANY reason you're not satisfied with your Brownells-exclusive Geissele trigger, it's still Guaranteed. Forever.® Simply return it to us for refund or exchange if it doesn't meet your expectations. Remember: you can't get these triggers anywhere else. They are available EXCLUSIVELY from Brownells! The B-GC Geissele Competition Trigger was developed to produce a short, relatively light single-stage pull and a short, quick reset that are ideal for 3 Gun competition and recreational target shooting. Two trigger springs are included so the B-GC can be set up with a 3.2 lb. or 4 lb. pull. Note: The B-GC trigger is not recommended for benchrest shooting or shooting that requires small groups. It is designed for competition involving rapid target engagement. SPECS: Steel, black finish. Fits semi automatic AR-15/M16 receivers with .154" diameter hammer and trigger pin holes. May be installed on AR-style .308 rifles that accept AR-15 triggers. Kit includes trigger and hammer assemblies, springs, hammer pin, tube of grease and installation instructions. Black spring is for 3.2lb pull. Gold and Silver colored are for 4lb pull.

B-G2S-E The Geissele 2 Stage Enhanced Trigger (B-G2S-E) provides superior control and helps accuracy while maintaining the robustness and reliability that Geissele triggers are known for. The B-G2S-E gives a smooth, light 1st stage take up of 2.3lbs and a crisp, candy-cane-like 2nd stage break of 1.2lbs. The B-G2S-E is ideal for use in precision Squad Designated Marksman type rifles where weapon accuracy and reliability are critical. B-GRF (Geissele Rapid Fire) The Geissele Rapid Fire Trigger (B-GRF) was developed to give semiautomatic-only rifles a glass-smooth trigger pull very similar to the Geissele Super Select Fire (SSF) trigger designed for the U.S. Special Operations Community . The B-GRF is a fast-shooting, smooth trigger ideal for 3 Gun competition and recreational shooting alike. It pulls like a single-stage, but resets like a two-stage. Two trigger springs are included so the B-GRF can be set up with a pull of either 4 lbs or 3.2 lbs. Does NOT convert semiautomatic rifles to automatic. Note: The B-GRF trigger has a very short, light pull and reset. It is not recommended for bench rest shooting or shooting small groups. It is designed for CQB-style rapid target engagement and quick follow up shots.

## Attributes

# BGC Brownells/Geissele Competition 1Stage Trigger Safety Instruction Guide

## Introduction

Thank you for choosing the BGC Brownells/Geissele Competition 1Stage Trigger for your AR15. This guide provides essential safety instructions to ensure the proper use and maintenance of your trigger. Please read this document carefully before installation and usage.

## General Safety Guidelines

- Ensure that you follow all local laws and regulations regarding the use of firearms and firearm accessories.
- Always treat your firearm as if it is loaded, even if you believe it is not.
- Keep your firearm pointed in a safe direction at all times.
- Store your firearm and its components securely to prevent unauthorized access, especially by children.
- Regularly inspect your firearm and trigger for any signs of wear or damage.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure that minors are supervised when handling firearms.
- **Installation Precautions:**
  - Always ensure the firearm is unloaded before starting the installation process.
  - Use proper tools and follow the installation instructions carefully to avoid injury or damage.
- **Trigger Pull Weight:** The BGC trigger can be set to a pull weight of either 3.2 lbs or 4 lbs. Choose the appropriate setting based on your experience level and intended use.
- **Not for Benchrest Shooting:** The BGC trigger is designed for competition and rapid target engagement. It is not recommended for benchrest shooting or situations requiring small groups.

## Instructions for Installation and Usage

### 1. Unloading the Firearm:

- Ensure the firearm is completely unloaded. Remove all ammunition and visually inspect the chamber.

### 2. Installation of the Trigger:

- Gather all components included in the kit: trigger assembly, hammer assembly, springs, hammer pin, tube of grease, and installation instructions.
- Follow these steps:
  - Remove the existing trigger and hammer from the firearm.
  - Install the BGC trigger and hammer assemblies according to the provided instructions.
  - Use the appropriate spring for your desired pull weight (black spring for 3.2 lbs, gold/silver for 4 lbs).
  - Ensure all components are securely installed.

### 3. Testing the Trigger:

- After installation, perform a function check to ensure the trigger operates correctly.
- If unsure about the installation or function, consult a qualified gunsmith for assistance.

#### 4. Regular Maintenance:

- Clean the trigger and surrounding areas regularly to ensure optimal performance.
- Apply grease as needed to maintain smooth operation.

## Disposal Instructions

- Dispose of any unused or damaged parts in accordance with local regulations.
- Do not dispose of firearm components in regular household waste. Follow proper hazardous waste disposal guidelines if applicable.

## Contact Information for Further Support

For any questions or concerns regarding the BGC Brownells/Geissele Competition 1Stage Trigger, please refer to the contact information included with your product packaging.

Thank you for prioritizing safety and compliance. Enjoy using your new trigger responsibly!
