

MICRO-ADJUSTABLE TAPER CRIMP DIES - REDDING MICRO-ADJUSTABLE TAPER CRIMP DIE .223

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Top-adjusting dies save time and aggravation by eliminating the need to remove the die from the press in order to adjust the bullet crimp - perfect for high-volume, progressive reloaders. Knurled micrometer-type barrel gives you approximately $\pm .100$ " adjustment after the initial setup. No more guessing if your crimp is at the right place or having to loosen everything up to guess again. Innovative internal sleeve of hardened steel forms the crimp. Sleeve is double-ended, with a specific taper at each end, so it can be flipped around to crimp a second, related-size cartridge.

Attributes

- Name: [REDDING MICRO-ADJUSTABLE TAPER CRIMP DIE .223](#)

Safety Instruction Guide for MICROADJUSTABLE TAPER CRIMP DIES

Introduction

Thank you for choosing the MICROADJUSTABLE TAPER CRIMP DIES from REDDING. This guide provides important safety information and instructions for the proper use of this product. Please read this guide carefully to ensure safe handling and operation.

General Safety Guidelines

- Ensure safe use of the product by following all instructions provided in this guide.
- Always handle reloading equipment with care to avoid accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- If you notice any defects or malfunctions, discontinue use immediately and contact a qualified professional.
- Store the product in a dry and secure location when not in use.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the crimp dies.
- Do not exceed the recommended adjustments as specified in the product instructions.
- Ensure that the die is securely attached to the press before use to prevent accidents.
- Avoid placing hands or fingers near moving parts during operation.
- Use the dies only for their intended purpose—crimping cartridges as specified.
- Do not use the product if you are under the influence of drugs or alcohol.
- Keep the work area clean and organized to avoid tripping hazards or distractions.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reloading press is turned off and unplugged (if applicable).
- Securely attach the MICROADJUSTABLE TAPER CRIMP DIE to the press according to the manufacturer's instructions.
- Make sure the die is properly aligned with the cartridge holder.

2. Adjustment:

- Use the knurled micrometertype barrel to make precise adjustments to the bullet crimp.
- After initial setup, you can adjust the crimp by approximately $\pm .100$ ".
- Avoid making adjustments while the die is in use.

3. Crimping Process:

- Insert the cartridge into the die and ensure it is properly seated.
- Activate the press to crimp the bullet securely.
- Inspect the crimped cartridge for quality and consistency before further use.

4. PostUse:

- After use, clean the die to remove any debris or residue.

- Store the die in a safe location, ensuring it is protected from moisture and damage.

Disposal Instructions

- Dispose of any defective or damaged dies according to local regulations.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, product performance, or to report unsafe products, please refer to the contact details provided with your product packaging or visit the official REDDING website for more information.

Conclusion

By following these safety instructions and guidelines, you can ensure safe and effective use of the MICROADJUSTABLE TAPER CRIMP DIES. Always prioritize safety and compliance with relevant regulations to protect yourself and others. Thank you for your attention to these important safety measures.
