

MICRO-ADJUSTABLE TAPER CRIMP DIES - REDDING MICRO-ADJUSTABLE TAPER CRIMP DIE 308

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Top-adjusting dies save time and aggravation by eliminating the need to remove the die from the press in order to adjust the bullet crimp - perfect for high-volume, progressive reloaders. Knurled micrometer-type barrel gives you approximately $\pm .100$ " adjustment after the initial setup. No more guessing if your crimp is at the right place or having to loosen everything up to guess again. Innovative internal sleeve of hardened steel forms the crimp. Sleeve is double-ended, with a specific taper at each end, so it can be flipped around to crimp a second, related-size cartridge.

Attributes

- Name: [REDDING MICRO-ADJUSTABLE TAPER CRIMP DIE 308](#)
- Manufacturer: [REDDING](#)
- Product no.: 100014701
- Mfr. No.: 31155

Safety Instruction Guide for MICROADJUSTABLE TAPER CRIMP DIES

Introduction

Thank you for choosing the MICROADJUSTABLE TAPER CRIMP DIES by REDDING. This product is designed to enhance your reloading experience by providing precise adjustments for bullet crimping. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of the MICROADJUSTABLE TAPER CRIMP DIES by following these guidelines:
 - Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using reloading equipment.
 - Keep the workspace clean and organized to avoid accidents.
 - Ensure that the die is compatible with the cartridge being used (308 Winchester).
 - Store the die in a dry, cool place when not in use to prevent rust and damage.
 - Regularly inspect the die for wear and damage before each use.

Specific Safety Precautions for Use

- To avoid potential hazards while using the MICROADJUSTABLE TAPER CRIMP DIES:
 - Do not exceed the recommended crimp adjustment of $\pm .100"$ after the initial setup.
 - Avoid adjusting the die while it is still mounted on the press to prevent injury.
 - Keep hands and other body parts away from the die during operation.
 - Use the die only for its intended purpose—crimping bullets for the 308 Winchester cartridge.
 - Do not modify the die or use it in a manner not specified by the manufacturer.

Instructions for Installation and Usage

- Follow these steps for the proper installation and usage of the MICROADJUSTABLE TAPER CRIMP DIES:

1. Installation:

- Unpack the die and inspect it for any damage.
- Mount the die securely onto your reloading press according to the manufacturer's instructions.
- Ensure the die is properly aligned with the press and the cartridge feed.

2. Initial Setup:

- Adjust the die to the desired starting point based on your reloading specifications.
- Use the knurled micrometertype barrel for precise adjustments.

3. Crimping Process:

- Insert the cartridge into the press and ensure it is seated correctly.
- Operate the press to apply the crimp.
- Check the crimp for accuracy and adjust as necessary using the micrometertype barrel.

4. Final Checks:

- After crimping, inspect the cartridges for uniformity and quality.

- Store any unused cartridges in a safe and secure manner.

Disposal Instructions

- When disposing of the MICROADJUSTABLE TAPER CRIMP DIES:
 - Follow local regulations for disposal of metal products.
 - Do not dispose of the die in regular household waste.
 - Consider recycling the die if it is no longer usable.

Contact Information for Further Support

- For any inquiries regarding safety or product usage, please refer to the contact information provided with your purchase. It is important to have access to support for any questions or concerns you may have.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your MICROADJUSTABLE TAPER CRIMP DIES. Always prioritize safety and comply with the recommendations outlined in this guide. Thank you for choosing REDDING for your reloading needs.
