

ULTIMATE SAFETY PLUNGER FOR GLOCK® - APEX TACTICAL SPECIALTIES INC ULTIMATE SAFETY PLUNGER FOR GLOCK®

[Handgun Parts](#) > [Safety Parts](#) > [Safety Plungers](#)

The Ultimate Safety Plunger replaces the factory safety plunger, for a smoother trigger take-up and extended service life. The part acts in the same manner as the original, blocking the striker channel and prevent the firing pin from moving forward unless the trigger is manually pulled to the rear. The USP improves upon the original by smoothing out trigger take-up, while maintaining timing with aftermarket trigger systems. The USP is machined from 440C stainless steel, with a hardness of 48-54 Rc. Fits small frame Glocks.

Attributes

- Name: [APEX TACTICAL SPECIALTIES INC ULTIMATE SAFETY PLUNGER FOR GLOCK®](#)
- Manufacturer: [APEX TACTICAL SPECIALTIES INC](#)

Safety Instruction Guide for Ultimate Safety Plunger for Glock®

Introduction

Thank you for choosing the Ultimate Safety Plunger (USP) for your Glock® firearm. This guide provides essential safety information, installation instructions, and usage guidelines to ensure the safe operation of your product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the Ultimate Safety Plunger is installed correctly to prevent any accidental discharge.
- Always treat your firearm as if it is loaded, even when you believe it is not.
- Keep the firearm pointed in a safe direction at all times.
- Store your firearm and any accessories in a secure location, out of reach of children and unauthorized users.
- Regularly check for any signs of wear or damage on the plunger and other firearm components.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- The Ultimate Safety Plunger is designed for use with small frame Glock® models: 17, 19, 22, 23, 26, 27, 31, 32, 33, 34, and 35.
- Ensure that the firearm is completely unloaded before attempting to install or replace the safety plunger.
- Do not attempt to modify or alter the Ultimate Safety Plunger in any way.
- If you experience any malfunctions or issues with the plunger, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation Instructions

1. Ensure the firearm is unloaded.
2. Remove the slide from the frame according to the Glock® owner's manual.
3. Locate the factory safety plunger and carefully remove it using appropriate tools.
4. Install the Ultimate Safety Plunger by reversing the removal process, ensuring it is seated correctly.
5. Reassemble the firearm and perform a function check to confirm proper operation.

Usage Instructions

- After installation, ensure that the trigger operates smoothly with the Ultimate Safety Plunger in place.
- Regularly test the trigger function to confirm that the plunger is blocking the striker channel correctly.
- If using aftermarket trigger systems, verify compatibility with the Ultimate Safety Plunger.

Disposal Instructions

- Dispose of the Ultimate Safety Plunger in accordance with local regulations.
- Do not dispose of the plunger in regular household waste. Instead, consult local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Ultimate Safety Plunger, please refer to the manufacturer's contact

information provided with your product packaging. It is essential to have access to a reliable source for safety inquiries and product support.

Conclusion

The Ultimate Safety Plunger is an essential component for enhancing the safety and performance of your Glock® firearm. By following the guidelines outlined in this manual, you can ensure a safe and effective experience. Always prioritize safety and responsibility when handling firearms. Thank you for your attention to these important safety instructions.
