

# AR-15 GAS BLOCK ALIGNER - UNIQUETEK GAS BLOCK ALIGNER 22 CALIBER

[Gunsmith Tools](#) > [Rifle Tools](#) > [Gas System Tools](#)

## Makes Perfect Gas Block Alignment Easy

Plastic segmented rods fit into AR-15 gas ports and help you find correct alignment between barrel and gas block. Rods come in 6-paks, and in different lengths and diameters to fit the different gas port specs used by various manufacturers. Segmented construction lets you break the rod off with standard cleaning rod, and high-visibility orange color makes it easy to verify both portions are out of the gas system and barrel. Available in .22 Cal for .223/5.56 and .30 Cal for all calibers from .223/5.56 up to .30 caliber. Includes instructions.

# Safety Instruction Guide for AR15 Gas Block Aligner

## Introduction

Thank you for choosing the AR15 Gas Block Aligner by UNIQUETEK. This product is designed to assist you in achieving correct alignment between the barrel and gas block of your AR15 rifle. It is important to follow the safety guidelines and instructions provided in this manual to ensure safe and effective use.

## General Safety Guidelines

- Always handle firearms and related accessories with care.
- Ensure that the firearm is unloaded before using the gas block aligner.
- Keep the gas block aligner out of reach of children and unauthorized users.
- Inspect the gas block aligner for damage before each use. Do not use if damaged.
- Use the gas block aligner only for its intended purpose as described in this guide.
- Follow all local laws and regulations regarding firearm accessories.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use eye protection when working with firearms and accessories.
- Avoid using the gas block aligner in wet or damp conditions.
- Do not force the segmented rods into the gas ports; ensure they fit properly.
- Be cautious of sharp edges on the segmented rods.
- Ensure that the highvisibility orange portions of the rods are completely removed from the gas system and barrel after use.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather your gas block aligner and necessary tools (e.g., cleaning rod).

### 2. Using the Gas Block Aligner

- Select the appropriate segmented rod based on the gas port specifications of your firearm.
- Insert the segmented rod into the gas port of the gas block.
- Adjust the alignment of the gas block as needed while ensuring the rod is properly seated.
- Once alignment is achieved, remove the segmented rod carefully.
- Verify that both portions of the rod are completely removed from the gas system and barrel.

### 3. PostUse

- Store the gas block aligner in a safe and dry location.
- Regularly check the condition of the aligner before future use.

## Disposal Instructions

- Dispose of any damaged or broken segmented rods in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it is deemed hazardous.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the AR15 Gas Block Aligner, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy using your AR15 Gas Block Aligner responsibly!
